NEWBERG-DUNDEE PUBLIC SCHOOLS

District Restructuring Committee

The Five Models at a Glance

Board of Directors review · October 2026 · Figures from the September 10, 2026 enrollment count

	Model	Bldgs closed	Net recurring savings	Avg elem. class size	Smallest to largest class	Standard deviation	Grade levels under 2 teachers	Rated seats closed	Open seats after, K-8	Students who change buildings
	Today, current staffing			**25.03**	**14.00 to 37.00**	**5.30**	**17 of 36**		**1,758**	
C	Close Ewing Young and Antonia Crater	2	**$1,081,500**	24.65	21.50 to 30.00	**1.85**	2 of 24	700	1,058	about 500
D	Close Ewing Young and Joan Austin	2	**$1,182,526**	24.79	22.50 to 27.33	**1.43**	5 of 24	700	1,058	about 340
G	Close Ewing Young and Mountain View; Antonia Crater becomes the 6th grade center	2	**$1,200,177**	24.63	21.50 to 30.00	**1.81**	2 of 25	900	858	about 1100
H	Close Ewing Young and Joan Austin; K-4, 5-6, 7-8	2	**$1,395,026**	24.94	22.50 to 27.50	**1.49**	5 of 20	700	1,058	about 985
J	Close Antonia Crater and Joan Austin; Ewing Young stays open	2	**$800,210**	24.59	20.67 to 29.00	**2.02**	7 of 24	1,000	758	about 460

Rated seats: 4,170 across the eight K-8 buildings today. Open seats after = seats in the buildings that stay open, less all 2,412 K-8 students. Students who change buildings counts every student in a different building than under today's structure, including grade-span moves (all 6th graders to Antonia Crater under G; all 5th graders to Chehalem Valley and the middle school swap under H). Average class size, spread and standard deviation for G include grade 6, which the model places in an elementary building. Model J was added at the Board's request after the committee's October 1 meeting; its student placements were estimated by grade and proximity rather than mapped by address, so its class-size figures are estimates. Updated October 28, 2026.
