District Enrollment Comparison, 2025-26

Newberg SD 29J (focus district) against six comparison districts. Regular district schools only; charter and alternative schools excluded. Canby is the only district whose grade configuration differs from Newberg's.

Students by grade band and number of schools

Largest district first. Grade bands count students by actual grade, so Canby's 6th graders fall under 6-8 even though most attend K-6 elementary schools. Students per school = total ÷ all schools.

Enrollment by grade band

How this was counted

- Source: fall 2025-26 enrollment file, by school and grade. School level comes from the grades each school enrolls: K start = elementary, 6 or 7 start = middle, 9 start = high; a K-8 school is counted separately.
- Alternative high schools are excluded so high school figures cover comprehensive high schools only: Catalyst High School (Newberg), Oregon City Service Learning Academy, and Riverside High School (West Linn-Wilsonville).
- Charter schools are excluded, including Lake Oswego's Harmony Academy (a recovery charter). McMinnville, Newberg and Canby have no charter schools in this file.
