

# Proposition 39: Sharing Public School Facilities Fairly

California Education Code 47614(a): "The intent of the people in amending Section 47614 is that public school facilities should be shared fairly among all public-school pupils, including those in charter schools."

*The law requires LAUSD to share with each operating charter school facilities sufficient to accommodate all of the charter school's in-district students in similar conditions – not to merely provide surplus or unused space. Through a process involving various stakeholders, LAUSD carefully considers the safety and welfare of all students when reviewing possible co-locations. The school District charges each charter school a pro-rata share of facilities costs for use of the site.*

## Regulatory Timeline

- **November 1:** Charter schools submit written requests for facilities including projected ADA.
- **December 1:** District reviews Charter ADA projections and responds with what it considers reasonable.
- **January 2:** Charter schools respond to District's ADA projections.
- **February 1:** District makes preliminary proposals of space to Charter schools.
- **March 1:** Charter schools respond to preliminary proposals.
- **April 1:** District makes Final Offers to Charter schools.
- **May 1:** Charter schools accept or decline their Final Offers.
- **If accepted,** Charter schools occupy sites 10 working days prior to their first day of school instruction.

## Resources Provided to LAUSD Sites

- Co-Location Coordinator Stipend
- Funding for Custodial Supplies
- Operation Support Services
- Shared Facilities Improvement Projects
