Search for Content

You can find articles by searching for keywords, topics, or subjects at the top of the Newsela website

To Search

1. Enter a keyword or subject into the Search option on the top of your screen.
2. Narrow down your search by selecting your filters from the options listed above the articles gallery, including articles, worksheets, videos, or text sets.

Build an Assignment

Teachers can assign articles, multiple articles, or videos to students.

Teachers can customize the assignment to include specific directions for students to complete activities, including taking the standards-aligned formative assessment, write prompts, checks for understanding, or annotating.

Assign a Newsela Article to:

- Build Background Knowledge
- Practice Literacy Skills
- Integrate Diverse Perspectives

Review Student Progress and Engagement

- Track student progress against key literacy skills
- Review annotations and write responses
- Robust classroom data to support data-driven instruction
