Getting Started with

My Math Academy & My Reading Academy

(for UTK-2nd Grade)

My Math Academy®

My Reading Academy®

1. [Install the Age of Learning apps in Schoology:](#)

My Math Academy[®]

My Reading Academy[®]

[AofL Educator Center](#)

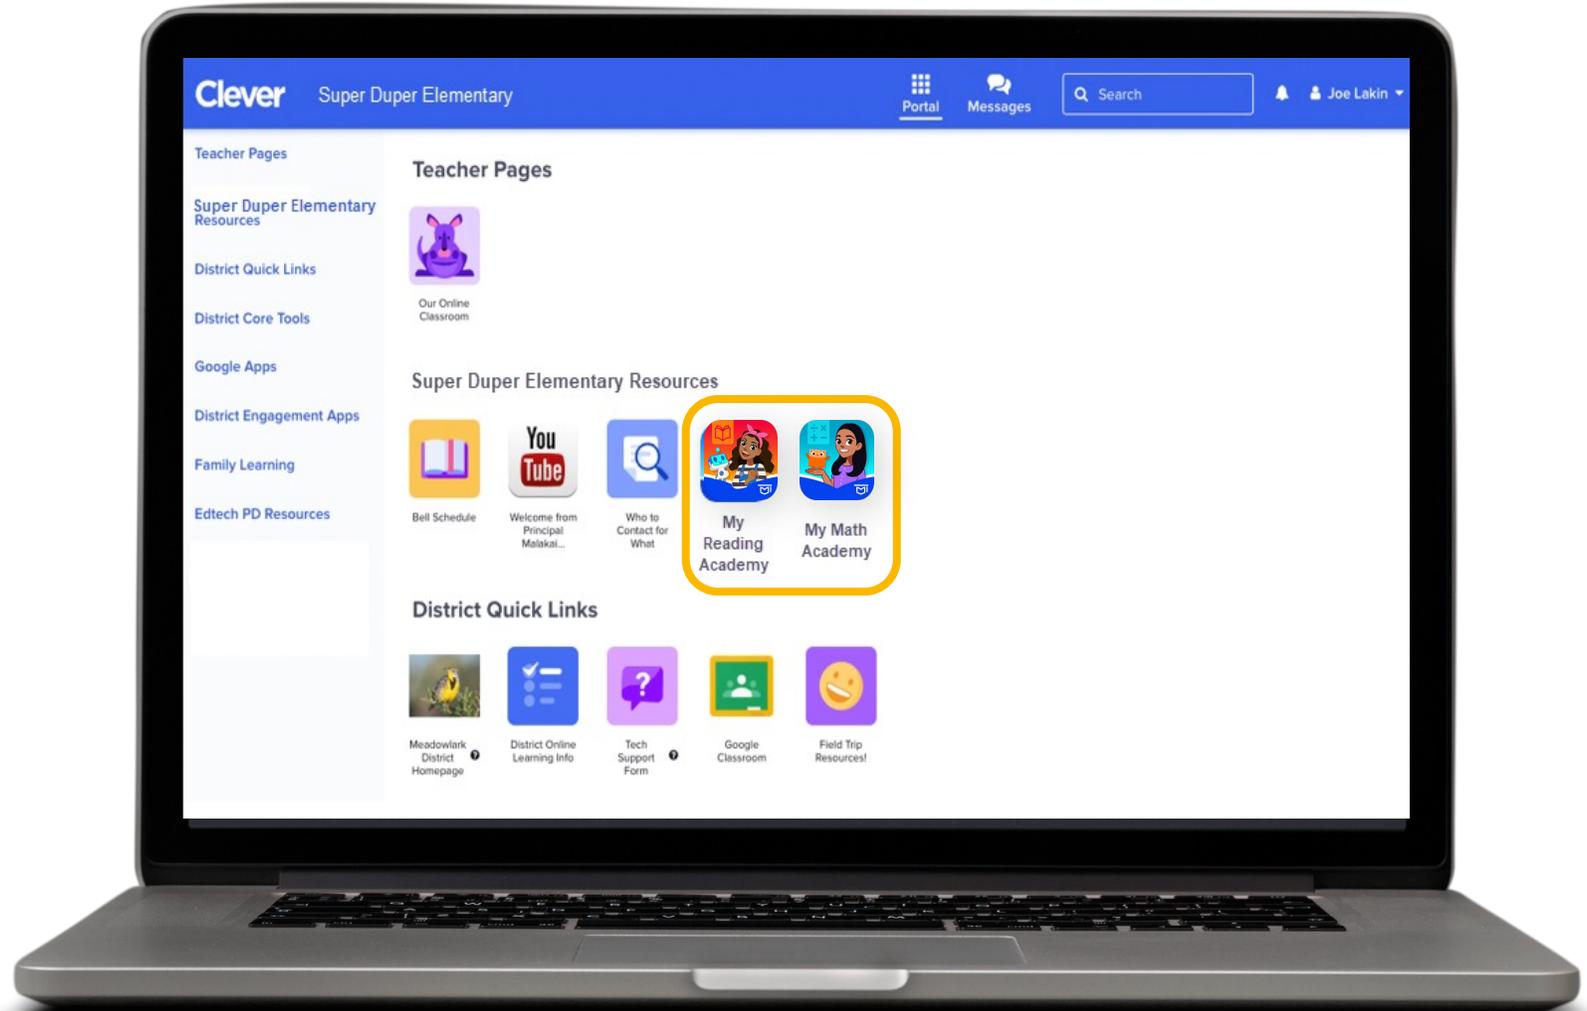

2. Prompt students to log in to the **My Math Academy** or **My Reading Academy** app via Schoology or Clever.

Age of Learning®
My Math Academy®

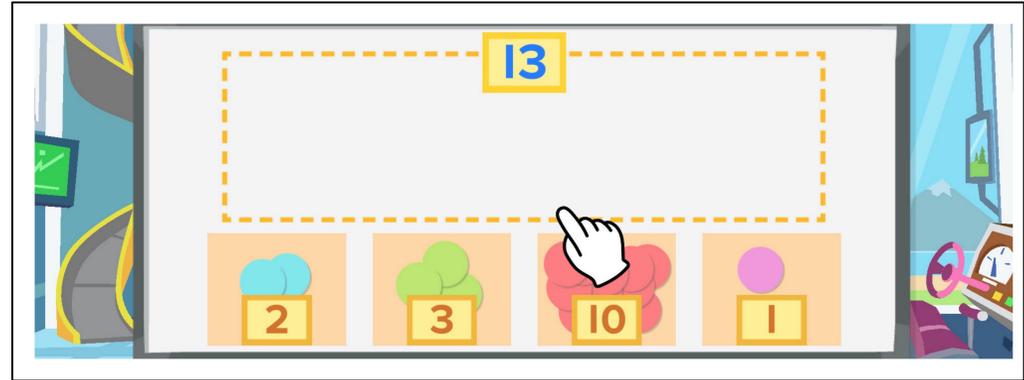

Age of Learning®
My Reading Academy®

3. Students will take a [Placement Test](#) during their initial login.

My Math Academy[®]

My Reading Academy[®]

“Placement” is the first experience students will have when they start using *My Math Academy* or *My Reading Academy* at the start of each new Academic Term. There is nothing that Teachers need to do to get their students into Placement or initiate the Placement Test other than getting them started using the programs.

4. To check students' Placement Test status, educators should log in to the **AofL Educator Center** app via Schoology or Clever.

The **Educator Center** is a powerful platform for managing and monitoring how your students use Age of Learning programs.

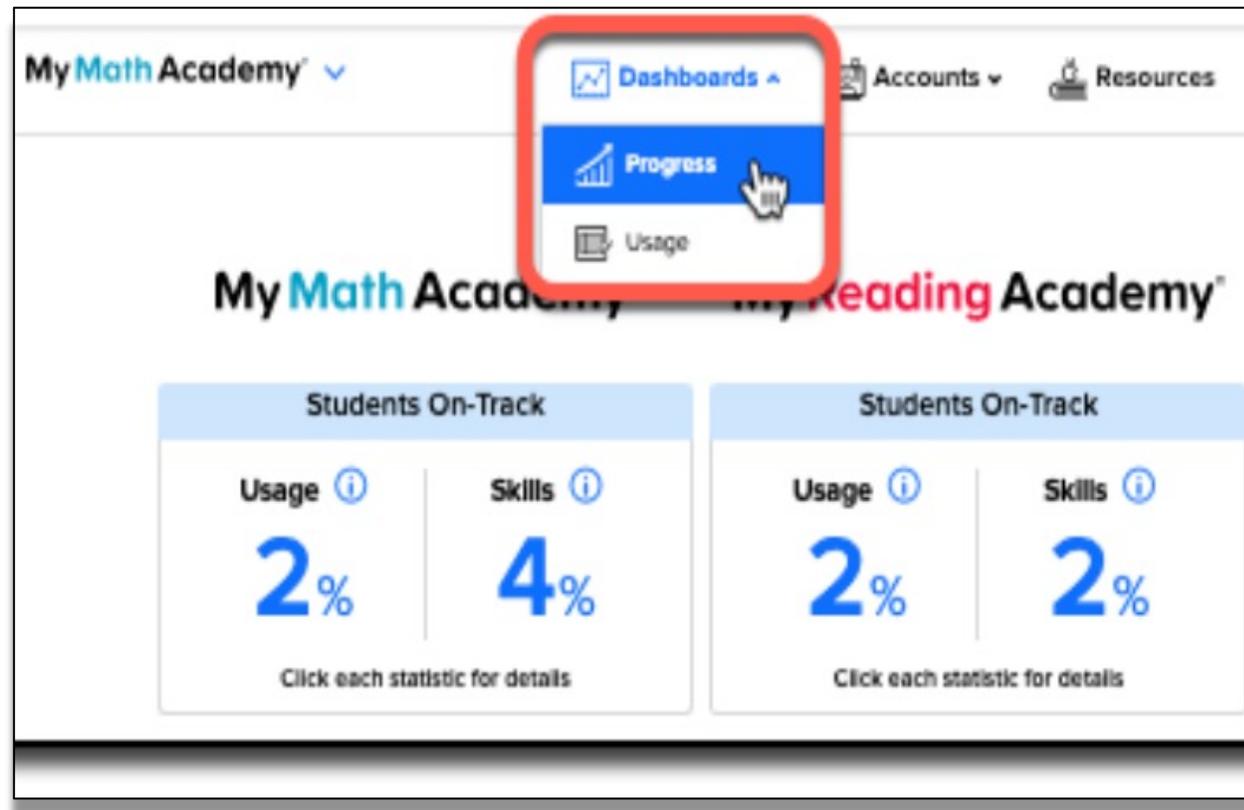

- See what students are learning
- Check progress and usage
- Manage student access
- Change student passcodes
- Print Placement Reports
- Send student/family invitations for at-home access
- And more

As your students interact with programs like *My Math Academy* or *My Reading Academy*, useful learning data will be displayed on the dashboard. The data is especially helpful for seeing the specific concepts students are learning, what they could work on next, and creating small groups to differentiate instruction.

5. Once in the **AofL Educator Center**:

Click **Dashboards** at the top of the page,
and then **Progress** in the drop-down menu.

The screenshot displays the MyMath Academy Educator Center interface. At the top, the navigation menu includes "MyMath Academy" with a dropdown arrow, "Dashboards" with a dropdown arrow, "Accounts" with a dropdown arrow, and "Resources" with a building icon. The "Dashboards" dropdown menu is highlighted with a red box and contains three options: "Progress" (selected, with a hand cursor icon), "Usage" (with a document icon), and "Usage" (with a document icon). Below the navigation menu, the main header reads "MyMath Academy" and "My Reading Academy". The main content area features two "Students On-Track" dashboards. Each dashboard has two columns: "Usage" and "Skills". The first dashboard shows 2% for Usage and 4% for Skills. The second dashboard shows 2% for Usage and 2% for Skills. Below each dashboard, it says "Click each statistic for details".

Students On-Track	
Usage ⓘ	Skills ⓘ
2%	4%
Click each statistic for details	

Students On-Track	
Usage ⓘ	Skills ⓘ
2%	2%
Click each statistic for details	

Placement Status details are displayed in the far-right column of the table.

Progress (Group cx5e - Teacher 3099)

Updated nightly at 12:00a.m. (PST)

This Week Overall

% of Students Who Have Achieved Their Skills Goal This Week **0%**

Skills Progress Status

Click each colored circle below for the list of associated skills.

Student Name	Needs Support (# of Skills)	In Progress (# of Skills)	Completed (# of Skills)	Placement Status
Student qs88	1	4		See Report
Student ttp8				In Progress
Student uxv1				In Progress
Student x037		5		See Report
Student 10bz1				Not Started
Student 10bzm				Not Started
Student 10bzn		1		Completed
Student 10bzo		2		See Report
Student 10pu8				Not Started
Student 198ml				Not Started

In the **Placement Status** column on the far right, you may see these four statuses:

1. **See Report:** This link indicates the student has finished the Placement Test AND gone to the program hub where recommended lessons are presented to the student. Clicking the **See Report** link will take you directly to that student's Placement Report.
2. **Completed:** Student has completed the Placement Test but the Placement Report has not yet been generated (reports are next day, up to 24 hours).
3. **In Progress:** Student is working on the Placement Test or has not yet returned to the program hub after the test.
4. **Not Started:** Student has not started the Placement Test.

6. After completing the Placement Test, students can start playing games at their level.

Age of Learning®
