

Welcome to ClassVR!

This guide has been designed to provide you with support on your new and exciting journey using virtual reality in your classroom.

Creating an Account

You should have received an invitation to create your ClassVR account and join your organization. If you haven't seen it yet, please check your junk or spam folder. Still no luck? Reach out to us at la.support@classvr.com and we'll be happy to help.

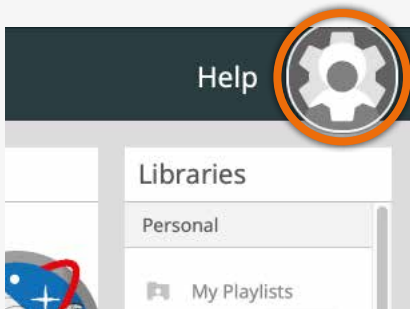

Enrolling your ClassVR Headsets

Once your account is set up and you have access to the ClassVR Portal, the next step is to enroll your devices into your organization.

To enroll, the devices will need to have access to the internet.

1

To connect to the internet, click on the 'Settings' menu in the ClassVR Portal.

2

Then, click on 'Connect Device' under 'Network'

3

Input your network's SSID and Password to create a QR code. Use the ClassVR Headset to scan the QR code, connecting your device to your network.

To connect to networks with different encryption methods, or to configure a proxy server, click on the 'quickstart page' hyperlink just above the QR code in the 'Connect Device' dialogue box.

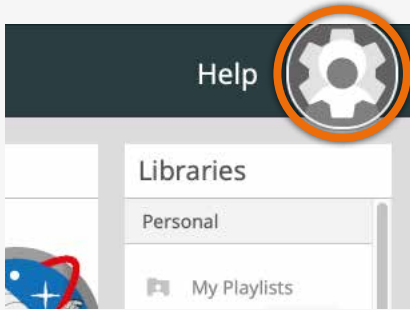

If your network requires an SSL certificate, please scan the following QR code to view our support article. Please note, the headsets will require an active network connection to download the SSL certificate.

Note: Make sure to scan the QR code to the right with your Cell Phone.

4

Once your devices are connected to the internet, navigate to the 'settings' menu again.

5

Click on 'enroll device' underneath the name of your organization.

6

Finally, use the ClassVR headset to scan the QR code and enroll into your organization.

You're all set. Your ClassVR headsets are connected to the internet, enrolled in your organization, and are ready for use!

If you experience any problems during the setup of your ClassVR headsets, please contact la.support@classvr.com and a member of our support team will be in touch. Alternatively, please call **+1 (888) 503 0553**.

Please be sure to check out our '**Get Started**' page for further guidance
