

Los Angeles Unified School District & Discovery Education Experience

Thanks to the partnership between Discovery Education and LAUSD, educators have the opportunity to enhance their lessons with dynamic, supplemental resources for all subjects and grade levels.

Connecting what is being taught in the classroom to the real world is critically important to preparing our students for tomorrow. Discovery Education is a vetted learning companion that provides relevant, high-quality, and engaging multimodal resources to engage all students in any learning environment. Ready-to-use activities, instructional strategies, and quiz tools save teachers time and support student engagement through one secure platform that easily integrates into Schoology.
