

Ruidoso Municipal Schools Transportation Protocol

Student Bus Badge and My Ride K-12 App Usage

To support student safety and provide real-time transportation updates for families, Ruidoso Municipal Schools is implementing the **My Ride K-12** system for all bus riders. This technology enhances route efficiency and provides accurate bus arrival and departure times through GPS-enabled tracking.

Student Bus Badge Protocol

1. Badge Use Requirement

All students riding the bus are required to **scan their assigned My Ride K-12 badge** when boarding and exiting the bus each day.

*This ensures accurate tracking of student ridership for safety and communication purposes.

*Students must carry and use their badge every day.

2. Lost or Missing Badges

*If a student loses their badge, the **first replacement is complimentary**.

***Any additional replacements will incur a \$5.00 fee** to cover the cost of materials.

*Replacement requests can be made through your school's front office.

3. Student Responsibility

*Students are responsible for bringing their badge daily.

*Bus drivers will remind students to scan on and off the bus.

*Students without a badge may experience delays boarding or exiting the bus as identity and route verification will be required manually.
