Ruidoso Municipal Schools

2022-2023 RFP #9 - 2022 E-Rate Wireless Infrastructure, Category 2

Question 1:

What level over power over ethernet is available?

Answer:

All switches provide PoE+, access points requiring more than PoE+ will require power injectors.

Question 2:

What types of mounts are required?

Answer:

Classroom AP's will mount to the T-Bar in the drop ceiling. Access points in cafeterias, gyms or open spaces will be wall mounted.

Question 3:

What model of switch is currently most used in the district?

Answer:

Cisco 2960

Question 4:

Where will protective cages be needed for wall mount APs?

Answer:

- 1 – RHS AUX Gym
- 2 – RHS Main BLDG First Floor
- 1 – Ruidoso Middle School
- 1 – Sierra Vista Primary
- 1 – White Mountain Elementary

Question 5: Will a lift be needed for any classrooms?

Answer: Ruidoso Middle School has 6 classrooms with a ceiling like the one pictured. A lift will be required.

Question 6: Which sites have lifts available?

Answer:

RMDS does have lifts, but operational status as well as OSHA certifications may not meet contractor requirements. Vendors should be prepared to rent lifts when needed.

Question 7: For new cable runs, is there room on the patch panel or will new panels need to be provided?

Answer:

The existing panels have space, new panels are not needed.
