### **Amendment to the Facilities Services Division Strategic Execution Plan to Update the Food Services Kitchen Equipment Modernization and Upgrade Program**

**March 14, 2017**

#### **Food Services Division and Facilities Services Division**

##### **Action Proposed:**

Staff proposes that the Board of Education amend the Facilities Services Division Strategic Execution Plan to update the Food Services kitchen equipment modernization and upgrade program to add 487 school sites and additional scope at school sites previously approved, and add \$40 Million to the program. Attachment A reflects the proposed updates to the program. With this action, the overall program budget will be updated to \$41.85 Million and will include all schools with kitchens.

Construction for the overall program began in the fourth quarter of 2016 and is anticipated to be completed in the third quarter of 2019. Upgrades will take place at school sites where the equipment is beyond economical repair and/or deemed to be in critical condition, and as such may pose health and safety concerns.

In an effort to replace nonfunctioning equipment of a permanent nature with upgraded equipment as quickly as possible to better serve students, work at some of the sites may have been initiated with Cafeteria Funds. With approval of this action, all costs associated with the upgrade of food service equipment and any associated necessary alterations at the school sites in the program will be funded by bond program funds targeted in the School Upgrade Program for the modernization and repair of school cafeterias. This may necessitate reimbursing Cafeteria Funds.

##### **Background:**

The latest phase of the District's bond program, the School Upgrade Program, includes a prioritized category of capital needs and associated spending target for the modernization and repair of school cafeterias. The Food Services Division is prioritizing the targeted funding for equipment modernizations, including walk-in freezers, and upgrading its Point of Sale Technology system, among other initiatives. Projects developed under this category of need are included in the Facilities Services Division Strategic Execution Plan.

Much of the District's food services kitchen equipment is deteriorated, antiquated, costly to maintain, and unreliable. Non-functioning equipment may pose health and safety concerns at schools. Modernizing antiquated food services kitchen equipment that is well beyond its useful life will help make nutritious healthy meals available to more students. Furthermore, upgrading school food services areas to provide modern and efficient equipment will decrease the demand for repair and maintenance, and reduce the District's energy consumption and impact on the environment.

On March 8, 2016, the Board of Education approved the Food Services kitchen equipment modernization and upgrade program authorizing \$1.85 Million for upgrades at up-to 218 school sites (Board Report No. 285-15/16). The proposed update to the program to add additional schools, scope and funding is anticipated to enable the food service equipment that is of a permanent nature and identified as being beyond economical

repair and/or in critical condition at schools to be replaced with up-to-date equipment of a permanent nature. The work to be undertaken at each school will include one or more of the following upgrades to school kitchens:

- Up-to-date energy efficient convection ovens
- Up-to-date energy efficient steamers
- Up-to-date energy efficient hot food cabinets (full and half size)
- Up-to-date energy efficient reach-in freezers (various sizes)
- Up-to-date energy efficient reach-in refrigerators (various sizes)
- Up-to-date energy efficient roll-in refrigerators (various sizes)
- Up-to-date energy efficient milk coolers
- Up-to-date energy efficient refrigerated merchandiser
- Up-to-date energy efficient heated merchandiser
- Various associated alterations and improvements necessary to support the new and up-to-date kitchen equipment, including but not limited to electrical upgrades, accessibility, etc.

**Expected Outcomes:**

Staff anticipates that the Board of Education will approve the proposed update to the program to address critical food services facilities needs that will improve health, safety and educational quality.

**Board Options and Consequences:**

A “yes” vote will authorize staff to proceed with the updated program in accordance with the provisions set forth in Measures K, R, Y and Q.

If the proposed action is not approved, critical food services facilities needs will remain unaddressed, and thus may be found to be non-compliant with federal, state, and local food safety standards.

**Policy Implications:**

These actions are consistent with the District’s commitment to address unmet school facilities needs and provide students with a safe and healthy learning environment.

**Budget Impact:**

The initial approval of the Food Services kitchen equipment modernization and upgrade program had a budget of \$1.85 Million. With this update to the program and addition of \$40 Million, the overall budget for the program is \$41.85 Million. The program will be funded by Bond funds targeted in the School Upgrade Program for the modernization and repair of school cafeterias.

**Issues and Analysis:**

The overall program is anticipated to be completed in the third quarter of 2019. Work will take place at schools where the equipment has been identified as being beyond economical repair and/or in critical condition based on data from survey results. Timing may be affected based upon the availability of qualified vendors.

Attachment A reflects the minimum kitchen equipment modernizations and upgrades needed at 487 school sites and additional program scope to be undertaken at 191 sites previously approved. This list was developed based on a survey and inventory of the food service facilities and equipment at all K-12 school sites Districtwide that was previously approved by the Board of Education (Board Report No. 125-15/16). If a type of kitchen equipment included in the scope of the program but not listed in Attachment A (of this Board Report or of

Board Report No. 285-15/16) fails at an individual school prior to, or during the course of construction at that particular school, the scope of work will be updated so that all equipment included in the program that is deemed to be beyond economical repair and/or in critical condition is modernized and upgraded.

On an annual basis, the Food Services Division will provide the Board of Education and School Construction Bond Citizens' Oversight Committee (BOC) with written progress reports on the overall program. Furthermore, staff will also provide quarterly updates to the Board and BOC outlining any additional equipment that was modernized and upgraded, but not specifically listed in this Board Report or the report that initiated the program (Board Report No. 285-15/16).

**Bond Oversight Committee Recommendations:**

This item was considered by the BOC at its meeting on March 2, 2017. Staff has concluded that the proposed amendment to the FSD-SEP will help facilitate implementation of the SEP, and therefore, it will not adversely affect the District's ability to successfully complete the SEP.

**Attachments:**

Attachment A - Update to the Food Services Kitchen Equipment Modernization and Upgrade Program

**Informatives:**

None.

RESPECTFULLY SUBMITTED,

  
MICHELLE KING  
Superintendent

**RESOLUTION 2017-10**

**BOARD REPORT NO. 360-16/17**

**AMENDMENT TO THE FACILITIES SERVICES DIVISION STRATEGIC  
EXECUTION PLAN TO UPDATE THE FOOD SERVICES KITCHEN  
EQUIPMENT MODERNIZATION AND UPGRADE PROGRAM**

WHEREAS, staff proposes that the Board of Education amend the Facilities Services Division Strategic Execution Plan to update the Food Services kitchen equipment modernization and upgrade program (collectively, the "Program") with a proposed combined budget of \$41.85 Million as described in Board Report 360-16/17 attached hereto; and

WHEREAS, on January 14, 2014, the Board of Education approved the establishment of the School Upgrade Program (SUP), the next phase of the District's Bond Program which will modernize, build and repair school facilities to improve student health, safety and educational quality; and

WHEREAS, the SUP includes a spending target to address "Modernize and Repair School Cafeterias to Make Nutritious Healthy Meals Available to More Students"; and

WHEREAS, on March 8, 2016, the Board of Education approved the Food Services kitchen equipment modernization and upgrade program authorizing \$1.85 million to replace aging and deteriorated equipment at 218 sites; and

WHEREAS, this update will add 487 schools, and \$40 Million to the Program, and additional program scope at 191 sites previously approved; and

WHEREAS, the overall budget for the Program will be \$41.85 Million and will be funded by Bond Program funds targeted for the modernization and repair of school cafeterias; and

WHEREAS, if a type of kitchen equipment included in Program fails at an individual school prior to, or during the course of construction at that particular school, the scope of work will

be updated so that all equipment included in the Program that is deemed to be beyond economical repair and/or in critical condition is modernized and upgraded; and

WHEREAS, all costs associated with the Program will be funded by Bond Program funds targeted in the SUP for the modernization and repair of school cafeterias, this may necessitate reimbursing Cafeteria Funds that may have been used to initiate work at some sites in an effort to replace nonfunctioning equipment as soon as possible to better serve students; and

WHEREAS, the Board of Education's approval of the proposed update to the Program will authorize District Staff to proceed with the expenditure of bond funds in accordance with the provisions set forth in Measures K, R, Y and Q; and

WHEREAS, the Program is consistent with the District's commitment to address unmet school facilities needs and provide students with a safe and healthy learning environment; and

WHEREAS, District Staff has concluded that the proposed SEP amendment will facilitate implementation of the FSD SEP, and therefore, it will not adversely affect the District's ability to successfully complete the FSD SEP.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The School Construction Citizens' Bond Oversight Committee recommends that the Board of Education adopt an amendment to the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to update the Food Services kitchen equipment modernization and upgrade program with a proposed combined budget of \$41.85 Million as defined in Board Report 360-16/17 a copy of which is attached hereto in the form it was presented to the BOC and is incorporated herein by reference.
2. This resolution shall be transmitted to the Los Angeles Unified School District Board of Education and posted on the Oversight Committee's website.
3. The District is directed to track the above recommendation and to report on the adoption, rejection, or pending status of the recommendations as provided in section 6.2 of the Charter and Memorandum of Understanding between the Oversight Committee and the District.
