

# SAFETY ALERT

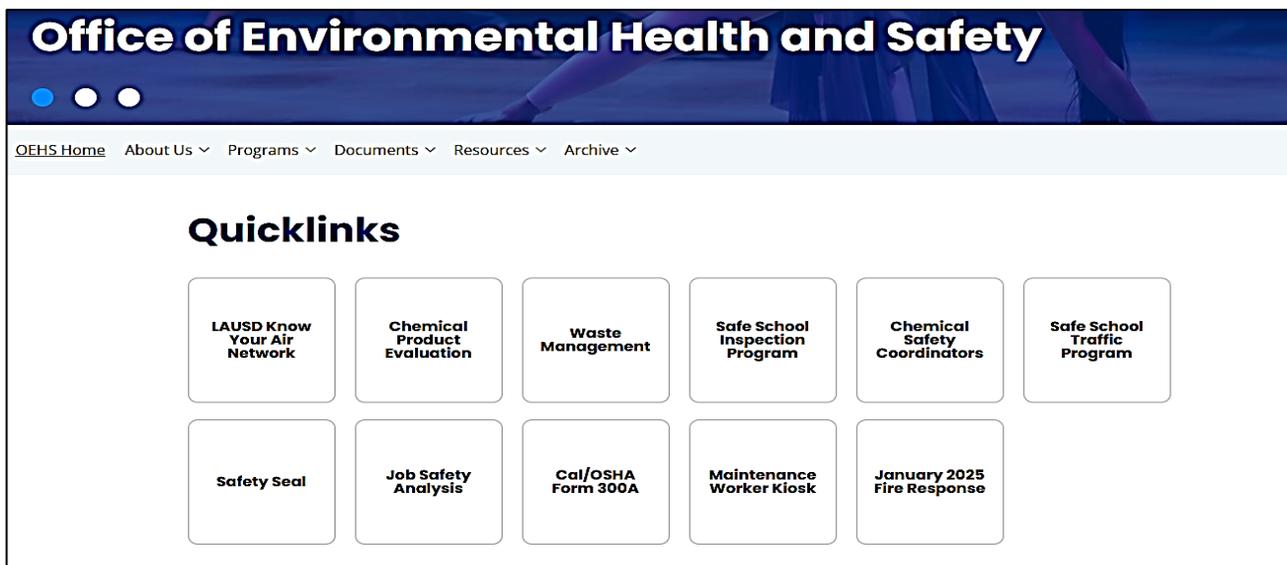

**No. 05-03**

**CHEMICAL PRODUCT EVALUATIONS**

**FEBRUARY 2005**

**Rev. 10/25**

LA Unified schools and facilities are authorized to use only chemical products that have been reviewed and approved by the Office of Environmental Health and Safety (OEHS). A list of all chemical products approved for District use may be accessed on the OEHS website (<https://oehs.lausd.org>) by clicking on “Chemical Product Evaluations” under the Programs tab and on the “Quicklinks” as shown below.

To determine if a chemical product has been approved for District use:

1. Go to the OEHS [Chemical Product Evaluation Program](#) page.
2. Click on “Chemical Approved List” EXCEL or PDF link to view and search for the product.

- If the product has been evaluated, it will be noted as "Approved" in the evaluation column and any restrictions noted under User or Remarks. If the product is not on the list, it has not been approved for District use and may not be used.

### Chemical Product List

The District maintains a "Chemical Products List" specifying commercial products which have been reviewed and determined safe for use at District facilities. Chemical products may not be used in District facilities unless they are included in the approved list.

To search for a product, please use the filters on the Excel file below.

[Chemical Approved List as of 10/01/2025.](#) (Please use your district email address to access this link).

[Chemical Approved List \(\\*.pdf\) as of 10/01/2025.](#)

If your chemical is not listed please email us at: [chemeval@lausd.net](mailto:chemeval@lausd.net)

To request a chemical product evaluation:

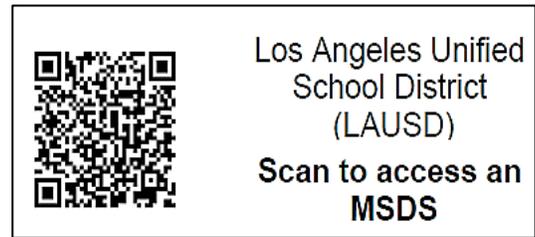

- Go to the OEHS "Chemical Product Evaluation Program" homepage and click on the link to the "Chemical Evaluation Request Form."
- Only LAUSD employees may submit a request for evaluation. Authorized representatives from departments such as Procurement, Design Standards, Maintenance and Operations, Food Services, and LAUSD Employees, as determined by OEHS, may submit requests.

- A current Safety Data Sheet (SDS) and a California Proposition 65 statement (often found in Section 15 of the SDS and mandated to be printed on the product label) must be provided with the request. Additional documents that may be submitted include technical sheets, product labels, and other documentation that might be helpful for the review.

- In California, Proposition 65 requires businesses to provide warnings about significant exposures to chemicals that can cause cancer, birth defects, or other reproductive harm. LA Unified requires the submission of a Proposition 65 statement from the manufacturer listing the presence or absence of hazardous ingredients.

All District facilities are required to maintain a Safety Data Sheet (SDS) for each chemical product used or stored at a school or facility (California Code of Regulations, Title 8, Section 5194). Approved SDS's may be downloaded from the OEHS webpage via [MSDS Online](#).

1. To download an SDS, go to "MSDS Online."
2. You may search for specific products by using the search function at the top of the page by product name, manufacturer, etc. or by scrolling through the list.
3. To view an SDS, click on the product name, then click the "View PDF" icon. A PDF will be generated with options to print and save.

The screenshot shows the 'eBinder for All Locations' interface. At the top, there is a search bar with 'All Categories' and a search icon. Below the search bar, there is a 'Filters' button and a 'Share' button. The main content area displays '4920 products (0) selected' and a 'View PDF' button. Below this, there is a table with columns for 'Product Name', 'Revision Date', 'Product CAS #', and 'Date Added'. The table lists several products, including 'Exterior Latex Wood Primer White', 'ARMORSEAL® TREAD-FLEX Water Based Acrylic Floor Coating Deck Gray', 'A-100® Exterior Acrylic Latex Satin Extra White', 'SHINELINE BASEBOARD STRIPPER', 'CAREFREE EGG SHELL BRIGHT WHITE VISTA PAINT CORPORATION', and 'Caulk Be Gone DAP Global Inc.'. A red arrow points from the 'View PDF' button to the first product in the list.

Product Name	Revision Date	Product CAS #	Date Added
(Pending) Exterior Latex Wood Primer White	N/A	—	07/09/2025
(Pending) ARMORSEAL® TREAD-FLEX Water Based Acrylic Floor Coating Deck Gray	N/A	—	07/09/2025
(Pending) A-100® Exterior Acrylic Latex Satin Extra White	N/A	—	07/09/2025
(Pending) SHINELINE BASEBOARD STRIPPER	N/A	—	07/09/2025
CAREFREE EGG SHELL BRIGHT WHITE VISTA PAINT CORPORATION	04/01/2021	—	10/28/2024
Caulk Be Gone DAP Global Inc.	03/28/2024	—	10/28/2024

All sites must maintain an up-to-date chemical inventory and binder or electronic file that contains the SDS for each chemical used or stored at that location for immediate reference in case of an emergency.

If you have any questions, please contact the OEHS call center at (213) 241-3199 or via email at [chemeval@lausd.net](mailto:chemeval@lausd.net).
