

OEHS has developed an "Employee Safety Seal Program" to recognize schools that have made the safety of their staff and students a priority.

By taking certain steps to achieve and maintain low employee injury rates and correct safety hazards, schools receive a special safety designation and are presented a certificate, as well as a seal that can be posted on the schools website. Be sure to watch the **SAFETY SMARTS** video on the OEHS webpage to stay informed: <https://achieve.lausd.net/Page/13581>.
