RESOLUTION IMPACT

Please complete the sections applicable to your impact statement and **delete non-applicable areas.**

Type of Impact Statement:

☒ BUDGET

BUDGET IMPACT:

If this resolution is adopted, the Board of Education will endorse the Campaign for a Safe and Healthy California to maintain SB 1137, and the District shall publish accurate and unbiased information about ballot initiatives on the November 2024 ballot.

Current program budgets for the Office of Government Affairs, the Division of Communication, Engagement, and Collaboration, and the Office of the Superintendent will be leveraged to implement this endorsement. Should there be additional costs to create and distribute communications materials related to the November 2024 ballot, this resolution may incur costs beyond those existing budgets.

The section below applies to all impact statements.

Please indicate if proposed actions above will be completed with current resources or if additional resources will be required, i.e., staff, funding, etc. (Please connect with Budget if funding impact)

As stated above, the endorsement of this campaign may be completed with current resources, however, the exact budget impact cannot be quantified at this time, it is unclear whether additional resources will be required to develop and distribute materials.

Type of Impact Statement:

☒ OPERATIONAL POLICY & STUDENT IMPACT

OPERATIONAL IMPACT:

Policy Impact:

This Resolution would support the enactment of SB 1137 (Gonzalez, 2022) which has been suspended since 2023 while opponents pursue a ballot referendum.

In 2022, the Legislature approved, and the Governor signed, *SB 1137 (Gonzalez)*, a measure prohibiting the construction and operation of gas and oil wells within 3,200 feet of a school, and other specified locations. At that time, Los Angeles Unified did not take a position on SB 1137. The challenged law includes:

- Prohibits most new or modified oil and gas wells within 3,200 feet of specified locations, including housing, schools, daycares, parks, healthcare facilities, community resource centers, detention facilities, and businesses open to the public.
- Requires existing wells in these areas meet specified health, safety, and environmental requirements by January 1, 2025.

While the legislative measure became effective on January 1, 2023, it was suspended on February 3, 2023, after opponents (oil and gas companies) collected enough signatures to qualify a referendum for the ballot in order to officially overturn the law

On November 5, 2024, voters will consider the referendum ballot measure. If the measure receives more than 50% of the vote, SB 1137 will become law once again. If it receives less than the 50% threshold, the measure will not go into effect.

The section below applies to all impact statements.

Please indicate if proposed actions above will be completed with current resources or if additional resources will be required, i.e., staff, funding, etc. (Please connect with Budget if funding impact)

Current program budgets for the Office of Governmental Relations will be leveraged to implement this endorsement.
