

# **Board Meeting Presentation**

**January 17, 2023**

**Acceleration Days Report: 12/19/22 & 12/20/22**

# Participation Data

- Close to 40,000 students participated in one or both Acceleration Days
- This provided an equivalent of 60,000 student days of intervention/enrichment services were provided
- More than 80% of participating students were those who would most benefit from intervention services
- More than 50,000 students accessed schoology just on Day 1

# Glows

- |  |
|--|
| ● Instructional materials and training provided in advance for classroom use |
| ● Enrichment provided for all students                                       |
| ● Student achievement data made available for instructional planning         |
| ● Small student to staff ratio   |
| ● On-demand tutoring provided  |
| ● High school students participated in SAT Enrichment workshops              |
| ● Academic Course Extension for secondary students                           |

# Grows

Explore root causes for delta between students who registered and those who participated

- Attendance rate immediately prior to winter break
- Impact of host sites vs. schools of regular attendance

- Refine information provided to families about benefits of participation

- Expand enrichment options that increase student learning

- Provide student achievement data earlier to allow more time for instructional planning

# Next Steps

- Analyze feedback to assist with planning  
April 3 – 4, 2023 Acceleration Days:
  - Students & Families
  - Teachers
  - Administrators
- Assess academic impact
- Outreach campaign and communication to families
