# What are Community Schools?

## What the Four Pillars of Community Schools Look Like in Action

**Schools at the Center** under the community schools model schools become the hubs within the community where students and families can receive holistic supports and community services in one place

**Holistic** supports students and families by the integrated focus on academics, health and social services, youth and community development, and community engagement

**Partnerships** between schools, the community, public agencies, CBOs, and other community resources

# **LA Community Schools within the California Community Schools Context**

# California Community School's Overarching Values

## Value 1:

### Racially-Just, relationship- centered spaces

Community schools aim to build trust by bringing people together and authentically valuing diverse cultures, perspectives and strengths in schools and communities. A focus on relationships builds a positive school climate and culture that is racially-just, caring, identity safe and nurtures a sense of belonging. Racially-just, relationship-centered spaces build collaborative, supportive and sustainable spaces where everyone learns and grows together.

## Value 2:

### Shared Power

Recognizing and building towards shared ownership and deep engagement, through shared decision-making and collaborative strategies, is vital to building a democratic, inclusive and empowering environment. Through these strategies, all interest-holders feel that their expertise and commitment to the community is recognized and valued.

## Value 3:

### Classroom- community connections

Community schools are continuously linking classroom instruction to the broader community. Instruction is engaging, providing real-world and project-based learning opportunities. It is interdisciplinary in nature and rooted in the assets of students, families, educators, and local community members. Curriculum is responsive to local history, knowledge, values, languages, literature, institutions, cultures, and environments. Community schools ground student learning in civic engagement and address real-world issues.

## Value 4:

### A focus on continuous improvement

Working together, community schools participate in an ongoing cycle of reflection, analysis, shared learning, and revision with a focus on student learning conditions, well-being and outcomes. Community schools also ensure students, families, school staff and the community are valued, engaged and empowered. Community schools go beyond traditional metrics of educational success to reinvent systems of measurement rooted in asset-based, community-driven, and actionable data. Data becomes a tool for improvement that students, staff, families and community members can access, an instrument for reflection and mutual accountability – a flashlight, not a hammer.

# California Community Schools Framework: 4x4

## The Four Pillars

1. Expanded learning time and opportunities
2. Integrated student supports
3. Collaborative leadership and practices
4. Active family and community engagement

## The Four Cornerstone Commitments

1. A commitment to assets-driven and strength-based practice
2. A commitment to racially just and restorative school climates
3. A commitment to powerful, culturally proficient and relevant instruction
4. A commitment to shared decision-making and participatory practices

## The Four Key Conditions of Learning

1. Supportive environmental conditions that foster strong relationships and community
2. Productive instructional strategies that support motivation, competence, and self-directed learning
3. Social and emotional learning (SEL) that fosters skills, habits, and mindsets that enable academic progress, efficacy, and productive behavior
4. System of supports that enable healthy development, respond to student needs, and address learning barriers

## The Four Proven Practices

1. Community Asset Mapping and Gap Analysis
2. A Community School Coordinator
3. Site-Based and LEA-Based Advisory Councils
4. Integrating and Aligning with Other Relevant Programs

# Career Technical Education (CTE) and Linked Learning

1

## Academic Excellence

High Quality Instruction

Enriching Experiences

Eliminating Opportunity Gaps

College and Career Readiness

### OUR PRIORITY

Champion multiple pathways for college and career readiness for all students

### WHY THIS MATTERS

Students must be able to visualize their post-secondary success and receive all of the tools and supports to take full advantage of the opportunities ahead

### STRATEGIES

- Provide equitable access to a rigorous college preparatory course schedule and offer supports to successfully complete A-G courses with a C or better
- Accelerate opportunities for career exploration, work-based learning, post-secondary pathways, and employment, including collaboration with local government and private industries to provide paid internship and apprenticeship opportunities for students
- Expand opportunities to participate in Career and Technical Education and Linked Learning pathways
- Implement an updated Individualized Graduation Plan, beginning in middle school, to monitor student progress and increase academic outcomes and opportunities for students after graduation
- Engage students and families at all levels, beginning in early grades, in college and career experiences and promotion of post-secondary options
- Expand evidence-based, equity-focused instructional and grading practices to support all learners in becoming college ready and achieving post-secondary academic success
- Ensure all students develop college knowledge and get support for planning, applying, and transitioning to college, including advisement on financial aid options
- Expand access to advanced learning options, such as advanced placement and college courses

# What is CTE?

CTE prepares students for success in college and careers by embedding the following in CTE Courses:

- Core academic skills
- Rigorous technical training with certifications
- Work readiness training
- Work-based learning experiences
- Leadership training through Career Technical Student Organizations

# What is Linked Learning?

An educational approach that

- Integrates content, CTE course, and work-based learning in project-based learning through teacher collaboration.
- Provides students opportunities to demonstrate outcomes in graduate student profile across all courses.
- Utilizes advisory to support students in work readiness and social-emotional learning.

# Los Angeles Unified has

### My Dream Career - Ecologist

#### Xello Activities

##### Introduction

Recently, I have spent some time using Xello to research my future and my future career options in particular. I soon realised that there was only one career for me - I want to become an ecologist! I have created this portfolio to help me to plan my ecologist career path.

I have looked at the different career paths available. I will need to study further at college and university, and then maybe take a role where I can get valuable experience, before becoming an actual ecologist.

- Ensure all students develop college knowledge and get support for planning, applying, and transitioning to college, including advisement on financial aid options
- Expand access to advanced learning options, such as advanced placement and college courses

# What is Dual Enrollment?

College courses offer to high school students as part of their regular instructional day. These courses are taught by college professors and provide students with dual credits for college and high school graduation

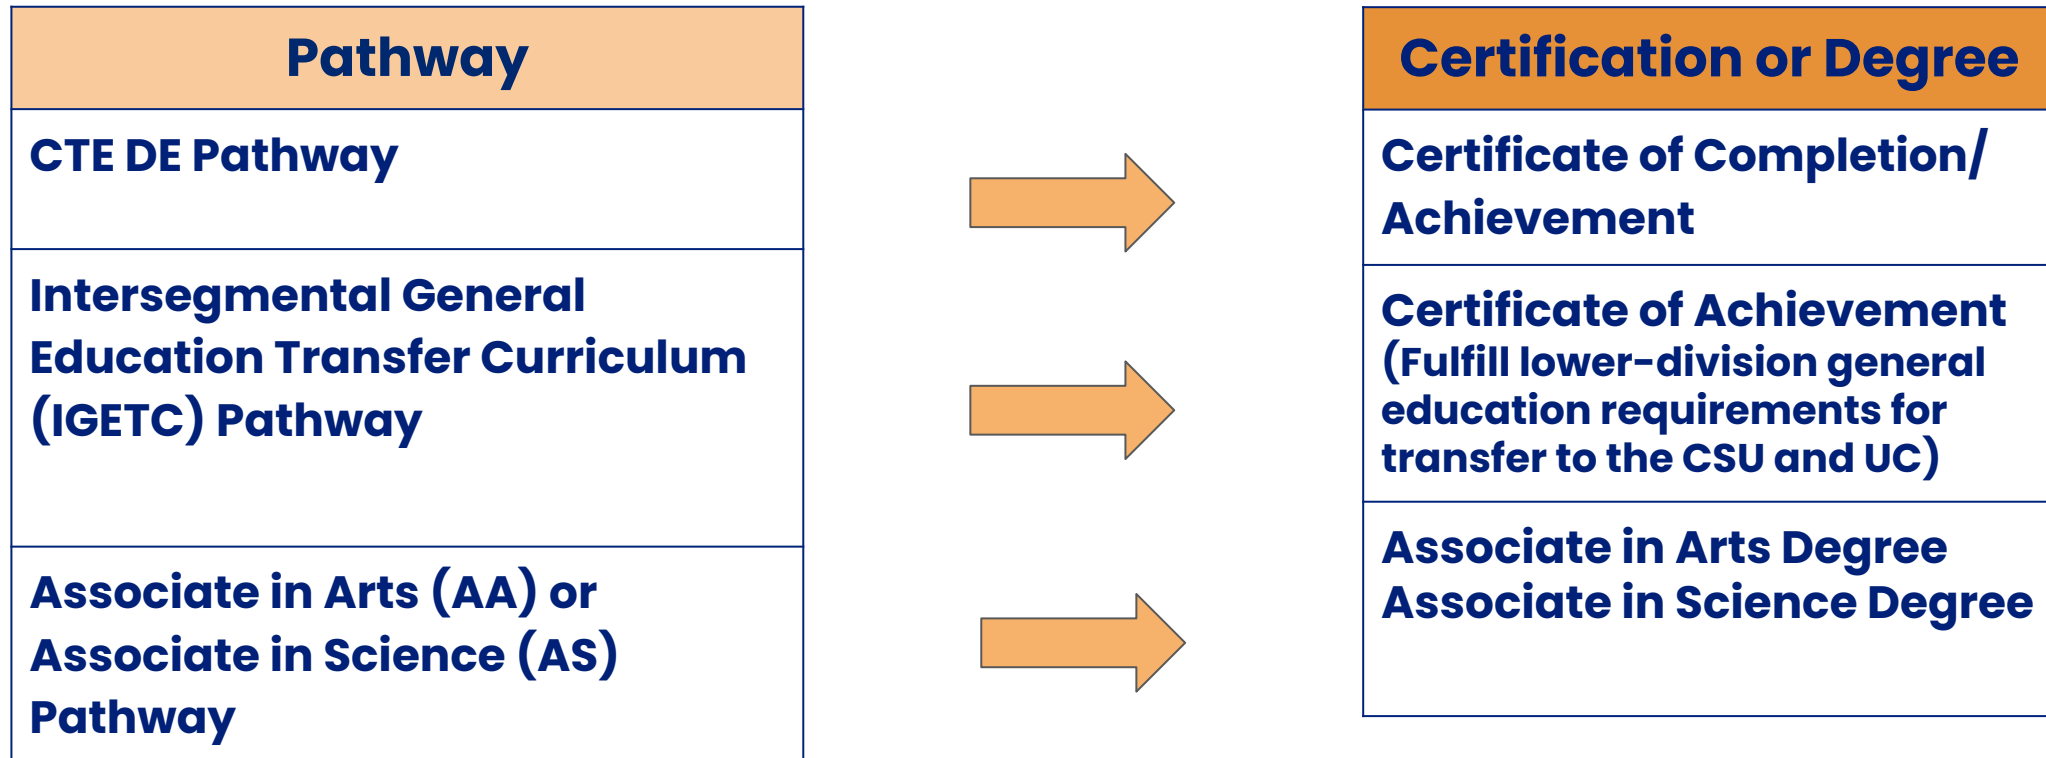

# Why Dual Enrollment?

- Fosters a college going culture by early exposure to college courses
- Opportunity to obtain a degree/certificate giving students a head start to post-secondary education
- Addresses equity gaps
- Students earn high school and college credits
- Explore fields of study to help select a career pathway and college major

# Expanding Dual Enrollment

- **Intersegmental General Education Transfer Curriculum (IGETC):** Facilitating a seamless transfer to CSU or UC universities
- **Career Technical Education (CTE):** Developing job-specific skills aligned with industry needs
- **Associate's Degree Programs:** Providing a clear path towards completion of a two-year degree

# College Courses in Middle School

Students can take college courses afterschool

- Fosters a college going culture
- A head start in completing LOTE and Math
- Explore career and fields of study to help select a future pathway and college major
- Adding opportunities for students to take engaging electives

- Established Quarterly Regional Meetings with LACCD
- Building our school counseling capacity through monthly professional development
- Collaborated on the development of the County of Los Angeles Dual Enrollment Toolkit
- Dream It, Achieve It – Leadership Convening

# Supporting our Schools

- Guidance to apply for College and Career Access Pathways (CCAP) Grant in Spring 2023 and Spring 2024
- Conducted the CCAP Grant Recipient Kick-Off Meeting
- Inaugural Dual Enrollment Symposium – Fall 2023

## First LAUSD and LACCD Dual Enrollment Symposium

# Grant Opportunities

In the last two years, the State of California has provided funds for high schools to establish or expand dual enrollment. The College and Career Access Pathway Grant was awarded to:

- **2023: 61 schools applied and were awarded the grant**
  - \$100,000 across 4 years
  - 7 out of the 18 Community Schools
- **2024: 38 schools applied, pending notification**
  - \$100,000 across 3 years
  - 1 Community School – pending approval

# Community Schools Strategy Inside of the Classroom

# Community Schools Classroom Framework

**Curriculum**

**Values**

**Commitments**

# Community School Classrooms Are Centered Around The Four Key Conditions for Learning

## PRODUCTIVE AND INNOVATIVE STRATEGIES

Designing instruction using **evidence-based strategies**, including innovative **instructional technology** applications, that support motivation, competence and self-directed learning.

Teaching is **differentiated** and takes students' prior knowledge and experiences into account, providing the right amount of challenge and support.

Ensuring students are *Ready for the World* through **opportunity, access and real-world application**:

- **Career Exploration labs (Paxton Patterson),**
- **Linked Learning, Career and Technical Education,** and
- **Dual Enrollment** pathways to create lessons that connect current learning to their students' future selves.

SEL guides the way by integrating **SEL practices**, nurturing essential skills such as **social awareness, self-management, and self-efficacy.**

Fostering these competencies enables **academic progress** and **productive student behavior.**

Promoting **interpersonal skills** and **cultivating a positive growth mindset** supports **student resilience** and **productive action.**

**Cultivating supportive ecosystems** using **anti-racist** and **anti-bias** strategies that

- **foster strong relationships** and **community,**
- **emotional and identity safety,** and
- **a sense of belonging and purpose.**

Using **culturally relevant and responsive pedagogy** and **restorative practices** ensure all students are supported and valued in every classroom.

Refocusing classrooms on **Equitable Grading and Instruction (EGI)** using clear **learning targets.**

A **growth-mindset** approach is used for K-12 teaching and learning based on the understanding that all students can learn when provided with the **right conditions** and **support**, providing more students **academic success** and ultimately taking charge of their own learning.

Creating bridges to learning beyond the classroom by **connecting learning** to larger **social and economic issues** impacting the school community.

Instruction is **interdisciplinary and focuses on real world connections** to learning through **Project Based Learning (PBL)** and **Community Based Learning (CBL).**

## Joy and Wellness

Welcoming Learning Environments

Whole-Child Well-Being

Strong Social-Emotional Skills

Outstanding Attendance

### OUR PRIORITY

Design and sustain welcoming, safe, environmentally friendly, affirming, and inclusive learning environments

### WHY THIS MATTERS

Healthy and safe environments increase student capacity for learning and success

### STRATEGIES

- Support and build capacity of all campus staff to implement affirming, welcoming, and trauma-informed practices
- Increase staff awareness and capacity to support students around sexual orientation, gender identity, and gender expression
- Develop safe and sustainable green spaces, outdoor learning environments, and shaded areas at each school
- Ensure “safe passage” to and from school through coordination with local civic and safety organizations

- Create asset-based and culturally responsive classrooms and curricula that value and celebrate the diverse backgrounds of our students
- Engage students in regular, inclusive celebrations and community events that recognize diverse cultures
- Increase access to other safe learning and community spaces, including libraries and partner organizations
- Complete regular environmental health, safety, and emergency readiness assessments at schools

# Building a Foundation of Joy and Wellness in the Community School

## Building in Leadership

55 administrators participated in 2 Joyful Disruption overview sessions.

## Developing Educators

over 400 teachers coordinators, and administrators completed 8 hours of Joyful Disruptions training in the Spring.

New Sessions begin summer, 2024.

## Establishing the Foundation

"Start with Hello", Social Emotional Learning (SEL), and Positive Behavior Intervention and Supports (PBIS) training was provided on three Saturdays Fall, 2023. Close to 100 educators attended each session.

# Bringing to Life the Commitments through “Joyful Disruption”

## Equitable Grading & Instruction Fall 2023 Newsletter

6

### Spotlight – Carver Middle School

Pedro Lemus, ELA Teacher

Pedro Lemus has dedicated himself to advancing his EGI growth over the past few years. As a middle school ELA teacher, he found inspiration during his participation in the EGI PD Series and achieved EGI Certification in 2021. Motivated to continue to explore EGI's educational potential, Pedro enrolled in the 1st Cohort of the EGI Micro-Credential. After successfully earning the Micro-Credential badge, he has embraced the role of EGI Champion at his school site.

This school year, the primary focus at Carver has been the alignment of learning targets across various content areas with a strong emphasis on providing support to students in understanding learning targets and strategies to obtain them.

In Pedro's ELA class, students kick off each unit with a clear understanding of the unit learning target. Throughout the unit, students self-assess using rubrics and evaluate their progress toward proficiency in Schoology. This approach allows students to make a connection between their day-to-day assignments and their proficiency level.

How are you  
incorporating  
learning  
targets?

**Community Schools apply the training so that classrooms live the “Focus on Continuous Improvement” value.**

Value 4:

**A focus on  
continuous  
improvement**

Working together, community schools participate in an ongoing cycle of reflection, analysis, shared learning, and revision with a focus on student learning conditions, well-being and outcomes. Community schools also ensure students, families, school staff and the community are valued, engaged and empowered. Community schools go beyond traditional metrics of educational success to reinvent systems of measurement rooted in asset-based, community-driven, and actionable data. Data becomes a tool for improvement that students, staff, families and community members can access, an instrument for reflection and mutual accountability – a flashlight, not a hammer.

- Provide targeted professional learning opportunities and coaching for newly hired teachers at highest-needs schools that result in effective, equity-driven instruction
- Expand equitable grading practices, proficiency-based assessments, and personalized instruction to support all students in demonstrating grade-level proficiency of standards-based learning targets
- Analyze and act upon assessment data to guide instructional planning and personalized learning so all students reach proficiency

# **“Defined Learning” is Supporting our Standards Based, Rigorous Curriculum**

# Supporting Interdisciplinary Instruction

## **DEFINED LEARNING | CAREER CONNECTED PBL**

A robust library that provides teachers with K-12 standards-aligned Project-Based Learning (PBL) units which are presented to students through the lens of modern-day STEM careers.

- engages students in authentic, real-world scenarios
- establishes connections to career pathways.

### **Spring 2024**

16 Community Schools receive the materials and professional development around interdisciplinary instruction.

### **Fall 2024**

Begin Defined Learning at 16 sites

### **Spring 2025**

Add additional Community Schools to the training.

The 16 initial sites engage students in one PBL
