In Control: Charter Schools Division

Agenda Date: 11/17/2025

Approval of the Renewal Petition for Valley International Preparatory High [PUBLIC HEARING]
Charter Schools Division

Brief Description:

(Approval of the Renewal Petition for Valley International Preparatory High) Recommends approval of the renewal petition for Valley International Preparatory High, a Start-Up Independent charter school, located in Board District 3 and Region North, for five (5) years, beginning July 1, 2026, until June 30, 2031, to serve up to 400 students in grades 9-12 in each year of the charter term.

Action Proposed:

Approve the renewal petition for Valley International Preparatory High (“Charter School”), a Start-Up Independent charter school, located in Board District 3 and Region North, for five (5) years, beginning July 1, 2026, until June 30, 2031, to serve up to 400 students in grades 9-12 in each year of the charter term. The recommendation for approval is based on the information set forth in the attached Staff Assessment and Recommendation Report.

Background:

Valley International Preparatory High is a 9-12 high school currently serving 291 students on a private facility at 18827 Roscoe Blvd., Northridge, CA, 91324 in Board District 3 and Region North. Valley International Preparatory High was originally approved by the LAUSD Board of Education December 5, 2017. Pursuant to Education Code section 47607.4, all charter schools whose term expires on or between January 1, 2022, and June 30, 2025, inclusive, shall have their term extended by two years, and all charter schools whose term expires on or between January 1, 2024, and June 30, 2027, inclusive, shall have their term extended by one additional year. Thus, by operation of law, the charter term for Valley International Preparatory High expires June 30, 2026.

On August 21, 2025, Valley International Preparatory High submitted its charter renewal petition application to the Charter Schools Division seeking to continue operations of its independent charter school. The 90-day statutory timeline for Board action on this petition runs through November 19, 2025.

An initial Public Hearing was held on October 14, 2025.

Based on a comprehensive review and assessment of Charter School’s renewal petition application and its record of performance, staff has determined that Charter School has met the requirements for renewal and therefore recommends approval of the renewal petition.

Due Diligence:

Current Valley International Preparatory High governing board members completed questionnaires so the District may assess whether any conflicts of interest arise based on the information provided. A confidential due diligence review of the charter school and its governing organization, school leader and financial manager, was

performed by the Office of the Inspector General, and to the extent any material concerns were identified by the Office of the Inspector General, such information was forwarded to District staff for further assessment.

Statutory Framework and Criteria for Renewal:

A charter school must demonstrate that it is eligible for a renewal of its charter by meeting specific renewal criteria outlined in the Charter Schools Act. The renewal criteria prescribed in Education Code sections 47607 and 47607.2 requires a three-pronged analysis:

Criterion 1: The Charter Schools Act provides that renewals are governed by the standards and criteria described in Education Code section 47605 applicable to initial petitions. The first criterion considered in reviewing a renewal petition requires an analysis of the following:

- Whether the petition includes a sound educational program;
- Whether the petition contains a reasonably comprehensive description of the 15 elements required for petitions;
- Whether the petition contains an affirmation of each of the conditions described in Education Code section 47605(e); and
- Whether the charter school is demonstrably unlikely to successfully implement the program set forth in the petition. Education Code section 47607(b) provides that renewals are governed by the standards and criteria described in section 47605 applicable to initial petitions. (The Board may not consider the community impact analysis or District fiscal analysis in determining whether to grant or deny a renewal petition).

Criterion 2: The Board is required to consider the charter school's performance on the California School Dashboard accountability indicators. Education Code sections 47607 and 47607.2 prescribe three-tiers of performance classification in which a charter school falls within one of the following categories - "high," "middle," or "low." The three-tier classification considers a charter school's performance on the California School Dashboard accountability indicators, with an emphasis on the measurements of academic performance.

Criterion 3: Notwithstanding Criterion 1 and 2, the Board must also consider whether the charter school's enrollment or dismissal practices are discriminatory as grounds for nonrenewal. (Ed. Code, § 47607(e).) Additionally, the Board considers whether the charter school has substantial fiscal or governance factors as grounds for nonrenewal. (Ed. Code, § 47607(e).)

Expected Outcomes:

Charter School is expected to operate its school in a manner consistent with Board action, policies and requirements, local, state, and federal law including ordinances, statutes, and regulations as well as with the terms and conditions set forth in Charter School's petition. The measurable pupil outcomes and method by which pupil progress toward outcomes will be measured are set forth in the charter petition.

Board Options and Consequences:

"Yes" - If the Board adopts the recommendation of approval of the renewal charter petition, Charter School would be authorized to continue operations as a charter school for the charter term beginning July 1, 2026.

"No" - If the Board does not adopt the recommendation of approval, and instead takes specific action to deny the renewal charter petition, Charter School would not be authorized to continue operations as a charter school.

The petitioners may appeal a denial to Los Angeles County Board of Education. If the petition is approved on appeal by the Los Angeles County Board of Education, Charter School would be authorized by the Los Angeles County Board of Education. If the Los Angeles County Board of Education denies the renewal petition, the petitioners may appeal that denial to the California State Board of Education. If the denial of the renewal petition is reversed by the California State Board of Education, the California State Board of Education shall designate, in consultation with the petitioners, either the LAUSD Board or the Los Angeles County Board of Education as the chartering authority. This Board Report No. 144-25/26, accompanying documents, and transcript of the Board meeting, shall constitute the Board of Education's adopted written findings of fact for the denial of Charter School renewal petition.

Policy Implications:

All provisions in the FSDRL shall be consistent with and be governed by all applicable legal and District policy requirements. To the extent any inconsistency may exist between any provision contained in the FSDRL and any applicable legal and District policy requirement, those applicable legal and District policy requirements shall control and the FSDRL shall be updated accordingly.

Budget Impact:

State income and various other income sources to the District are reduced when current District students enroll at a charter school, and comparable or offsetting expenditure reduction may not occur in such cases. Under Education Code section 47604(d), a chartering authority that grants a charter to a charter school to be operated as or by a nonprofit public benefit corporation is not liable for the debts or obligations of the charter school or for claims arising from the performance of acts, errors, or omissions by the charter school, if the chartering authority has complied with all oversight responsibilities required by law including, but not limited to, those required by Education Code section 47604.32 and Education Code section 47605(m). As the chartering authority, the District will continue to monitor and evaluate the charter school's fiscal condition and operations, and management of public funds, including review of all legally required fiscal reports, and the annual update of the charter school's LCAP. (Ed. Code, §§ 47604.32, 47604.33, 47606.5.) Any significant modifications to the charter school's charter or operations that raise financial implications would require a material revision prior to implementation. Charter schools are expected to secure and maintain all insurance coverage consistent with all applicable legal, District and charter requirements.

Charter School has selected to join the LAUSD Special Education Local Planning Area (SELPA) Option 3. Charter School's fair share contribution to special education will be 10% of the charter school's AB 602 (rate includes Base, Cost-of-Living Adjustment (COLA), and Growth/Decline reduced by the amount withheld for Program Specialist/Regionalized Services) and Federal IDEA revenues. This amount will be paid from Charter School's Local Control Funding Formula ("LCFF") funds or other unrestricted revenue sources and will be allocated to support the existing District-wide administration of special education supports and services. The amount withheld by the District from the Program Specialist/Regionalized Services in fiscal year will continue to be withheld and adjusted annually for COLA. An additional 10% of special education revenues will be retained by the District and allocated as directed by the Advisory Board and members of the LAUSD SELPA Option 3, with the leadership of the Director, Charter Operated Programs. These funds will be used to support the personnel for the members of the LAUSD SELPA Option 3; build management and operating procedures to create an infrastructure to support schools in meeting the needs of students with mild to severe disabilities; and, to create and implement new programs that serve students in charter schools. If Charter School does not spend their allocation of special education funds during a fiscal year of the charter petition period, the allocation of special education funds to Charter School for the next fiscal year will be reduced in an amount equal to the unspent special education funds of the previous fiscal year.

In addition to the payments required under this option, Charter School may request specific special education related services from the District through fee-for-service arrangements that will reflect the calculated cost of the requested services and will be contingent on the District's available resources.

Any change in the Option election that occurs during Charter School's charter term shall be mutually agreed upon and addressed in a Memorandum of Understanding (MOU) between the charter school and the District. The new Option election shall be effective on July 1 of the next school year with the corresponding fair share contribution.

Student Impact:

As stated in the LAUSD Policy and Procedures for Charter Schools, "[W]hen the LAUSD Board authorizes and oversees a charter school, it establishes a relationship to advance its vision and mission and to accelerate gains in academic achievement and accountability for all of its students and public schools," (Policy, p.3). Based on a comprehensive review and assessment of Charter School's renewal petition application, staff has determined that Charter School has met the requirements for charter school approval.

Issues and Analysis:

If all applicable pending issues, including but not limited to special education requirements, special education local planning area (SELPA) requirements, governance, fiscal and facilities matters, are not resolved at the time of the Board meeting, the item may be pulled from the agenda to the extent consistent with the Charter Schools Act and the LAUSD Policy and Procedures for Charter Schools.

STAFF ASSESSMENT

I. ACTION PROPOSED

Staff recommends approval of the renewal petition for Valley International Preparatory High (“VIP” or “Charter School”), located in Board District 3 and Region North, for a term of five (5) years, beginning July 1, 2026, until June 30, 2031, to serve up to 400 students in grades 9-12 in each year of the charter term.

II. RENEWAL REQUIREMENTS

Upon submission, District staff comprehensively reviews each renewal petition application to determine whether the school has met the requirements for renewal set forth in Education Code sections 47605, 47607, 47607.2, and 47611.5.

Criteria for Charter School Renewal and Grounds for Nonrenewal

As part of staff’s holistic review of the renewal petition application, the charter school must be determined to be eligible for renewal of its charter under the specific renewal criteria outlined in the Charter Schools Act. The renewal criteria prescribed in Education Code sections 47607 and 47607.2 requires a three-pronged analysis:

- **Criterion 1:** Does the renewal petition include a sound educational program, a reasonably comprehensive description of the 15 elements required for petitions, an affirmation of each of the conditions described in Education Code section 47605(e), and are petitioners demonstrably unlikely to successfully implement the program set forth in the petition? (Ed. Code, § 47607(b).)
These criteria have been determined not to be bases for denial.
- **Criterion 2:** Is the charter school “high,” “middle,” or “low” performing? (see Ed. Code, §§ 47607(c), 47607.2(a), and 47607.2(b).) Has the charter school attained measurable increases in academic achievement schoolwide and for numerically significant student groups served by the charter school, and does the charter school have strong postsecondary outcomes, if applicable?
These criteria have been determined not to be bases for denial.
- **Criterion 3:** Is the charter school serving all pupils who wish to attend, or does the charter school have substantial fiscal or governance issues? (Ed. Code, § 47607(e).)
These criteria have been determined not to be bases for denial.

Charter Petition Requirement:

In accordance with Education Code section 47611.5, a charter school charter shall contain a declaration regarding whether or not the charter school shall be deemed the exclusive public school employer of the employees at the charter school for the purposes of Section 3540.1 of the Government Code, and that declaration shall not be materially inconsistent with the charter.

- Does the petition contain a declaration of whether or not the charter school shall be deemed the exclusive public employer of the employees of the charter school?
This requirement has been determined not to be a basis for denial.

III. GENERAL SCHOOL INFORMATION

A. School History

	Valley International Preparatory High
Initial Authorization:	On December 5, 2017, Valley International Preparatory High was authorized by the LAUSD Board of Education to serve 400 students in grades 9-12.
Most Recent Renewal	This is the charter school's first consideration for renewal. Pursuant to Education Code section 47607.4, all charter schools whose term expires on or between January 1, 2022, and June 30, 2025, inclusive, shall have their term extended by two years, and all charter schools whose term expires on or between January 1, 2024, and June 30, 2027, inclusive, shall have their term extended by one additional year. Thus, by operation of law, the charter term for Valley International Preparatory High expires June 30, 2026.
Approved Material Revisions of Current Charter:	Not applicable
Board Benchmarks in Current Charter Term:	Not applicable
Submission of Renewal Petition Application:	Valley International Preparatory High submitted its renewal petition application on August 21, 2025. The 90-day statutory timeline for Board action on the petition runs through November 19, 2025.
Concurrent Request for Material Revision:	Not applicable
Master Plan for English Learners and Standard English Learners:	Valley International Preparatory High implements the LAUSD Master Plan for English Learners and Standard English Learners.
Special Education SELPA	Valley International Preparatory High participates in LAUSD Special Education Local Plan Area (SELPA) Option 3.

B. Charter School Operator

Valley International Preparatory High is operated by Parents in Partnership, a California nonprofit public benefit corporation that does not operate any other LAUSD-authorized charter school.

IV. STUDENT ACHIEVEMENT AND EDUCATIONAL PERFORMANCE

a. Summary

Valley International Preparatory High has been identified by the state as a Middle performing charter school. The recommendation for renewal has considered the schoolwide performance and performance of numerically significant student groups and the state and local indicators reported on the California School Dashboard, and whether there was clear and convincing

verified data evidence showing the school demonstrated measurable increases in academic achievement, as defined by at least one year’s progress in each year in school, and/or strong postsecondary outcomes, as applicable.

Overall, Charter School’s Dashboard performance was higher than the state in ELA, Math, and on the College/Career Indicator (CCI). The English Language Progress Indicator (ELPI) data was not reportable due to the low number of English Learners. The charter school provided three years of verified data, demonstrating one year’s progress for All Students and a majority of numerically significant student groups in Reading and Math. However, there were participation rate concerns. The charter school submitted postsecondary data for college enrollment, but not for college persistence and completion.

Please see Valley International Preparatory High data sets and Verified Data Reports.

b. Measurements of Academic Performance on the California School Dashboard

Due to the COVID-19 pandemic, the 2022 Dashboard only displayed one year of data (also known as Status). Status Levels are reported based on the 2021-2022 school year data using one of five Status Levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status Levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Below, the 2023 and 2024 Dashboard Performance Levels (colors) based on two years’ data are provided.

Valley International Preparatory High Dashboard Indicators

School Year	ELA	Math	English Learner Progress	College/Career	Chronic Absenteeism	Graduation Rate	Suspension Rate
2021-2022	Very High	Medium	Not Applicable	Not Applicable	Not Applicable	Very High	Low

c. English Language Arts Indicator

In 2022, 2023, and 2024 in English Language Arts (ELA), the charter school’s Distance from Standard (DFS) was higher than the state for All Students and higher than the state for the one numerically significant student group.

Valley International Preparatory High - English Language Arts Indicator - 2021-2022

Student Group	Charter Participation Rate	Charter Level	Charter ELA (DFS)	State Level	State ELA (DFS)	Charter to State Comparison (DFS)
All Students	Met	Very High	87.8	Low	-12.2	Higher

e. English Learner Progress Indicator

ELPI data was not reportable due to the low number of English Learners.

f. College/Career Indicator

The College/Career Indicator was not reported on the 2022 Dashboard. In 2023 and 2024, the charter school’s percentage of students prepared was higher than the state for All Students, and both numerically significant student groups.

Valley International Preparatory High - College/Career Indicator - 2022-2023

Student Group	Charter Level	Charter Prepared	State Level	State Prepared	Charter to State Comparison
All Students	High	63.1%	Medium	43.9%	Higher
White	Very High	73.2%	Medium	53.2%	Higher
Socioeconomically Disadvantaged	Medium	43.3%	Medium	35.4%	Higher

g. Chronic Absenteeism Indicator
Not applicable

h. Graduation Indicator [HS only]

In 2022, the charter school's percentage of graduated students was higher than the state for All Students and higher than the state for the one numerically significant student group. In 2023 and 2024, the charter school's percentage of graduated students was higher than the state for All Students and higher for one of two numerically significant student groups. Valley International Preparatory High students must meet A-G requirements with a grade of "C" or better.

i. Suspension Rate Indicator

In 2022, 2023, and 2024, the charter school's percentage of students suspended at least once was lower than the state for All Students, and lower than the state for all numerically significant student groups.

j. Dashboard Local Indicators

Staff also considered the Local Indicators (e.g., Basic: Teachers, Instructional Materials, Facilities; Implementation of Academic Standards; Parent and Family Engagement; Local Climate Survey; Access to a Broad Course of Study) which have all been reported as "Met" in 2023 and "Not Met" in 2024.

k. Additional Information
Not applicable

V. ANNUAL PERFORMANCE-BASED OVERSIGHT RESULTS

In accordance with Education Code section 47604.32, the District's Charter Schools Division (CSD) conducts at least one school site visit each year where the CSD evaluates charter school performance in the following four categories: Governance; Student Achievement and Educational Performance; Organizational Management, Programs, and Operations; and Fiscal Operations. Charter schools are rated in each category based on information and evidence gathered at the time of the annual performance-based

oversight visit following a four-point rubric: (4) *Accomplished*, (3) *Proficient*, (2) *Developing*, and (1) *Unsatisfactory*. Please see below for Valley International Preparatory High outcomes on its annual oversight evaluation reports for the last two years.

a. Governance

Oversight Ratings/Concerns	
2023-2024	<i>Accomplished</i>
2024-2025	<i>Proficient</i>
Concerns	No unresolved issues pending

b. Student Achievement and Educational Performance

Oversight Ratings/Concerns	
2023-2024	<i>Accomplished</i>
2024-2025	<i>Proficient</i>
Concerns	No unresolved issues pending

c. Organizational Management, Programs, and Operations

Oversight Ratings/Concerns	
2023-2024	<i>Proficient</i>
2024-2025	<i>Accomplished</i>
Concerns	No unresolved issues pending.

d. Fiscal Operations

Oversight Ratings/Concerns	
2023-2024	<i>Accomplished</i>
2024-2025	<i>Developing</i>
Concerns	The rating of <i>Developing</i> in 2024-2025 was primarily due to the consolidated negative financial condition reported in the charter operator’s 2023-2024 independent audit report. See further details in the Fiscal Management and Performance section below

VI. VERIFIED DATA

Charter schools satisfying the Middle performing criteria may be renewed for a specified term. (Ed. Code, § 47607.2 (b)(7).) A chartering authority must consider, among other requirements, clear and convincing evidence, demonstrated by verified data, showing the charter school’s achieved measurable increases in academic achievement, or strong postsecondary outcomes for the timeframe specified in law. (Ed. Code, § 47607.2(b)(3).)

Charter School provided data from “MAP Growth by NWEA, Grades K-12” (NWEA) *Student Growth Summary Report* in Reading and Math. NWEA is an adopted academic progress indicator approved by the State Board of Education (SBE) to be on the verified data list. Per NWEA, this assessment only reports data disaggregated by grade levels.

Per Education Code section 47607.2 (c)(2), the State Board of Education established criteria to define verified data. To be eligible for inclusion as verified data, a data source (e.g., assessment or postsecondary outcome) must include the results of at least 95 percent of eligible students. The *Student Growth Summary Report* provided by Charter School in Reading does not provide a participation rate

on the report, however it does include the total number of “growth events¹” on the reports. In 2024-2025 Charter School had a norm enrollment of 258 students and the NWEA Reading report indicates that the school had 236 growth events and the NWEA Math report had 238 growth events. Thus, the 2024-2025 assessment data does not appear to include at least 95% of eligible students.

Per the California SBE’s May 2023 Agenda Item #02, publisher guidance states, “A CGI range of -0.2 to 0.2 (or greater) could be used as an approximation of one year’s growth (or more) in a subject, as the overall average growth of students would be generally consistent with the amount of growth observed by students in the same grade and subject with the same starting achievement level receiving a similar amount of instructional exposure.”

ELA Reading

Charter School provided data for 2022-2023, 2023-2024, and 2024-2025 (Fall to Spring administration) for Grade 9, Grade 10, Grade 11, and Grade 12, and for the following student groups²: Socioeconomically Disadvantaged, Latino, and White.

The 2024-2025 disaggregated data outcomes are represented in the table below showing overall Grades 9-12, and Grade 9 (Socioeconomically Disadvantaged, Latino, and White), Grade 10 (Socioeconomically Disadvantaged, Latino, and White), Grade 11 (Socioeconomically Disadvantaged, Latino, and White), and Grade 12 (Socioeconomically Disadvantaged and White) student groups, met one year’s progress.

Note: An asterisk (*) indicates that the student group consists of less than 11 students, the minimum size for reporting.

Charter School also submitted verified data using NWEA for the 2022-2023 and 2023-2024 school years. Based on NWEA's CGI range of -0.2 to 0.2, Charter School met the one year's progress for all grade levels and for all three of the school's student groups.

MATH

Charter School provided data for Math from "MAP Growth by NWEA, Grades K-12" (NWEA) *Student Growth Summary Report* for 2022-2023, 2023-2024, and 2024-2025 (Fall to Spring administration) for Grade 9, Grade 10, Grade 11, and Grade 12, and for the following student groups³: Socioeconomically Disadvantaged, Latino, Students with Disabilities, and White.

The 2024-2025 disaggregated data outcomes are represented in the table below showing overall Grades 9-12 and Grade 9 (Socioeconomically Disadvantaged, Latino, and White), Grade 10 (Socioeconomically Disadvantaged, Latino, and White), Grade 11 (Students with Disabilities, Socioeconomically Disadvantaged, Latino, and White), and Grade 12 (Socioeconomically Disadvantaged and White) student groups, met one year's progress.

Note: An asterisk (*) indicates that the student group consists of less than 11 students, the minimum size for reporting.

Charter School also submitted verified data using NWEA for the 2022-2023 and 2023-2024 school year. Based on NWEA's CGI range of -0.2 to 0.2, Charter School met the one year's progress for all grade levels and for all four of the school's student groups.

Based on the review and consideration of verified data, Valley International Preparatory High included three years of data, including Grades 9-12 and student group reports in Reading and Math. Valley International Preparatory High appears to have not met the 95 percent participation rate based on norm enrollment compared to growth events.

POSTSECONDARY OUTCOMES

Pursuant to Education Code section 47607.2(c)(2), the State Board of Education (SBE) established criteria to define verified data and identified an approved list of valid and reliable assessments and measures of postsecondary outcomes, for the timeframe specified in law. Education Code section 47607.2(b)(3)(B) specifies that strong postsecondary outcomes are defined by, "college enrollment, persistence, and completion rates equal to similar peers." To determine whether a charter school has demonstrated strong postsecondary outcomes, multiple data sources may need to be considered to assess college enrollment, persistence, and completion, as well as to identify similar peers.

Charter School provided the DataQuest College Going Rate for California High School Students by Postsecondary Institution Type Report ("DataQuest College-Going Rate") for the three most recent years 2018-2019, 2019-2020, and 2020-2021. California Department of Education DataQuest College-Going Rate is an adopted Postsecondary Indicator approved by the SBE to be on the verified data list and includes measures of college enrollment.

Enrollment

For Charter School's class of 2019, 80.6% of high school completers enrolled in college, which is higher than the enrollment rate of 56.4% for LAUSD, and higher than the enrollment rate of 64.9% for the state of California.

For Charter School’s class of 2020, 81.5% of high school completers enrolled in college, which is higher than the enrollment rate of 55.5% for LAUSD, and higher than the enrollment rate of 62.7% for the state of California.

For Charter School’s class of 2021, 66.7% of high school completers enrolled in college, which is higher than the enrollment rate of 55.0% for LAUSD, and higher than the enrollment rate of 62.2% for the state of California.

DataQuest College Going Rate	2018-2019	2019-2020	2020-2021
VIP – All Students	80.6%	81.5%	66.7%
Los Angeles Unified	56.4%	55.5%	55.0%
California	64.9%	62.7%	62.2%

Persistence

The California Department of Education DataQuest College-Going Rate does not include student persistence metrics.

Completion

The California Department of Education DataQuest College-Going Rate does not include metrics on student completion.

Therefore, as described above, Charter School demonstrated stronger enrollment in a postsecondary institution of higher education within 12 or 16 months of completing high school in all three years compared to LAUSD and the state of California, as reported by the DataQuest College Going Rate for 2018-2019, 2019-2020, and 2020-2021. However, postsecondary data was not provided related to college persistence and completion.

VII. FISCAL MANAGEMENT AND PERFORMANCE

a. Fiscal Condition

Valley International Preparatory High and its wholly owned subsidiary’s consolidated fiscal condition is negative.

Norm Enrollment ^A	231	258	272	275	258

¹ VIP explained that the reported net loss of (\$68,739) for 2021-2022 was primarily due to: a) an unbudgeted \$57,000 Special Education legal settlement executed on September 21, 2022, but recognized in 2021-2022 instead of 2022-2023; b) lower-than-expected student enrollment; and c) adjustments to Elementary and Secondary School Emergency Relief (ESSER) II and ESSER III fund allocations based on the school’s proportional share of Title I, Part A funds.

² The significant fluctuation in VIP’s net assets—from a positive balance of \$731,850 in Fiscal Year 2022–2023 to a negative balance of \$598,920 in Fiscal Year 2023–2024—is primarily due to the auditor’s adjustment in the 2023-2024 audit to include the financial results of an affiliated limited liability company, VIP-PIP LLC (LLC).⁴ **As shown in the financial table above, the \$1,069,964 adjustment reflects the LLC’s negative net assets, which stem from about one million (\$1M) in non-cash expenses (such as depreciation and loan amortization) recorded from 2021-2022 through 2022-2023. The net loss of (\$260,806) reported for Fiscal Year 2023-2024 also includes more than \$350K in non-cash expenses (such as depreciation and loan amortization). These non-cash expenses are not actual cash losses and do not impact Charter School’s ability to meet its financial obligations.**

The table above presents the financials including the LLC, while the table below shows the operations of Charter School alone. VIP remains financially stable, with increasing student enrollment, and sufficient reserves to support ongoing operation. The facility held through the LLC continues to provide long-term value and supports Charter School’s education mission. According to the charter operator, both LLC (the borrower) and Charter School are compliant under their leases and loan agreements.

⁴ As the sole member of this LLC, Charter School has both control and an economic interest requiring consolidation in accordance with Generally Accepted Accounting Principles (GAAP). The LLC was formed in March 2022 to hold title to and finance facilities to be rented to Charter School. VIP’s quarterly rent payments cover the bond principal and interest payments. The amounts are intercepted from Charter School’s state funding and remitted directly to a third-party trustee according to the charter operator’s audit.

³ VIP explained that the net loss of (\$240,626) projected in its 2024-2025 Unaudited Actuals was primarily due to lower-than-expected enrollment. See ^A below for current enrollment data.

^A VIP reported 291 Norm Enrollment for 2025-2026, which represents an increase of 60 students or 26% since Fiscal Year 2020-2021. VIP stated that it plans to continue increasing enrollment through

various means, for example, by increasing community engagement. The CSD will continue to monitor Charter School's student enrollment and financial condition as part of its oversight process.

CA School Dashboard: Academic Performance - English Language Arts

This report shows the performance levels for the English Language Arts Academic Performance Indicator for all student groups in grades 3-8 and 11. It also shows the participation rate, number of students tested, DFS (status), and performance level (color) for three consecutive years of the CA Dashboard. Performance Levels (colors) have five possible values (Red, Orange, Yellow, Green, Blue). A single asterisk (*) shows that the student group has fewer than 11 students and is not reported for privacy reasons. A cell with "--" means that data is not currently available. For student groups with less than 30 students and scores in the current and prior year, status is reported, but performance level (color) is not reported. Note: Charter Schools are treated as schools (not LEAs) when it comes to reporting Foster Youth and Homeless student groups. Charter schools will need at least 30 or more Foster Youth, or 30 or more Homeless youth, to receive a status level for each student group. The Every Student Succeeds Act requires districts and schools to test at least 95 percent of all students and student groups in English Language Arts and Mathematics. It also requires states to factor the participation rate into the Academic Indicator. For any local educational agency (LEA), school, or student group with less than 95 percent of students tested, the ESSA requires a penalty to be applied to the Academic Indicator. To meet this federal requirement, California assigns the Lowest Obtainable Scale Score (LOSS) to each student needed to bring the participation rate of the school, district, and/or student group to 95 percent. The LOSS assigned to each of these students who did not test will be used in calculating the Distance from Standard (DFS). When comparing school to state, only numerically significant student groups of 30 or more will be compared for accountability purposes.

CA School Dashboard: English Learner Progress Indicator (ELPI)

This report shows the percentage of current English learner (EL) students making progress towards English language proficiency at their school for all student groups in grades 1-12. The English Learner Progress Indicator (ELPI) relies on the results of the Summative English Language Proficiency Assessment (ELPAC), including Summative Alternate ELPAC results, to determine EL student progress. For the EL students taking the Summative ELPAC, those who increase an ELPI level or maintain ELPAC Level 4 are counted as making progress towards English language proficiency. ELPI Change measures the rate at which schools are improving their ability to move their EL students towards English language proficiency. It is the difference between the prior year Status and the current year Status. A single asterisk (*) shows that the student group has fewer than 11 students and is not reported for privacy reasons. A cell with "--" means that data is not currently available. For student groups with less than 30 students and scores in the current and prior year, status is reported, but performance level (color) is not reported.

Data collected by the California Department of Education (CDE) through the California Longitudinal Pupil Achievement Data System (CALPADS), California School Dashboard, and testing vendor. Districts and schools that do not meet the 95 percent participation rate on the Summative ELPAC and Summative Alternative ELPAC and have at least 30 EL students enrolled during the testing window (February 1 to May 31) will receive a modified ELPI rate on the California School Dashboard (Dashboard). For each district and school that does not meet the 95 percent target, the minimum number of students needed to reach a participation rate of at least 95 percent is determined. The resulting number of students will be counted as not making progress in the current ELPI Status calculation.

CA School Dashboard: Academic Performance - College / Career

This report shows the percentage of current graduates who meet specific College/Career Indicator (CCI) "prepared" criteria for all student groups in grades 9-12. For the 2023 Dashboard, the CCI will report the most current year data or "status only". Therefore the CCI will have performance displayed using one of five Status levels that range between Very Low (lowest performance), Low, Medium, High, and Very High (highest performance). A single asterisk (*) shows that the student group has fewer than 11 students and is not reported for privacy reasons. A cell with "--" means that data is not currently available. For student groups with 11-29 students or do not have at least 30 students with scores in the current and prior year, status and change are reported, and no performance level (color) will be reported. When comparing school to state, only numerically significant student groups of 30 or more will be compared for accountability purposes.

CA School Dashboard: Suspension Rate Indicator

This report shows the number of students who have been suspended at least once in the school year for all student groups in grades TK-12. A student is counted as suspended in the suspension rate only once regardless of multiple suspensions or multiple days of suspension. Please note that good performance on the Suspension Rate Indicator means having the lowest percentage of students suspended in the current year. A single asterisk (*) shows that the student group has fewer than 11 students and is not reported for privacy reasons. A cell with "--" means that data is not currently available. For student groups with less than 30 students with scores in the current and prior year, status and change are reported, but no performance level (color) will be reported. When comparing school to state, only numerically significant student groups of 30 or more will be compared for accountability purposes.

CA School Dashboard: Graduation Rate Indicator

This report shows the combined four- and five-year graduation rate for comprehensive (or traditional) high schools and Dashboard Alternative School Status (DASS) schools for all student groups in grades 9-12. This rate is based on the number of high school students who graduate with a regular high school diploma in either four or five years. The 2024 Graduation Rate Indicator includes students from the most recent graduation cohort (Class of 2024) as well as students from the prior cohort (Class of 2023) who graduated in their fifth year of high school in 2022-24. A single asterisk (*) shows that the student group has fewer than 11 students and is not reported for privacy reasons. A cell with "--" means that data is not currently available. For student groups with less than 30 students with scores in the current and prior year, status is reported, but no performance level (color) will be reported. When comparing school to state, only numerically significant student groups of 30 or more will be compared for accountability purposes.

Enrollment Report

This report displays CALPADS K-12 enrollment number and percentages of select student groups. Annual enrollment consists of the number of students primarily enrolled on Census Day (the first Wednesday in October). This information was submitted by local educational agencies (LEAs) and charter schools to the California Department of Education (CDE) as part of the annual Fall 1 data submission in the California Longitudinal Pupil Achievement Data System (CALPADS). These data were reviewed and certified in CALPADS as being accurate by authorized district or school personnel. In order to certify data in CALPADS, authorized district or charter school personnel are required to review the accuracy of all data associated with the applicable CALPADS submission. The CDE collects some data on GATE programs through the CALPADS; however, this information is submitted by LEAs on a voluntary basis and it wouldn't necessarily be accurate as per CDE.

Long-Term English Learners (LTEL) and “At-Risk”

Note: The “EL Total” column in this report displays the summed total of the disaggregated English Learner (EL) data in the four columns under the “English Learners” heading. The “Total (Ever-EL)” column displays the summed total of the data in the “RFEP” column plus the data in the four columns under the “English Learners” heading OR the data in the “EL Total” column, but not both. The percent values displayed in this report are calculated as a percent of the “Total (Ever-EL)” which fully and more accurately considers what happens to all EL students over time, including those who are Reclassified Fluent English Proficient (RFEP). Students with Disabilities Report

This report displays the K-12 enrollment and the number of K-12 students with disabilities total, by incidence category, and by eligibility as reported on the Census Day (First Wednesday in October) CALPADS Fall 1 Certified Student Profile List Report (Report 8.1) submitted by Local Education Agencies (LEAs). LEAs are required to “certify” specified data during submission windows. The CDE uses certified data for state and federal reporting and to develop accountability metrics. Once data are certified by an LEA following the close of the Amendment Window, they are “frozen” and cannot be amended. High Incidence is defined as students in the Other Health Impairment, Specific Learning Disability, and Speech or Language Impairment categories. Low Incidence Students are defined as those in the Autism, Deafness, Emotional Disturbance, Hard of Hearing, Intellectual Disability, Multiple Disabilities, Orthopedic Impairment, Traumatic Brain Injury, and Visual Impairment categories.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Board of Education Report

DESEGREGATION IMPACT STATEMENT (DIS)
VALLEY INTERNATIONAL PREPARATORY HIGH
BOARD OF EDUCATION REPORT 144–25/26

November 17, 2025

I. Category of Proposed Action:

The proposed action would renew the charter for five (5) years, beginning July 1, 2026, until June 30, 2031, to serve 320 students in grades 9-12 in year one, and up to 400 students by the end of the charter term.

II. Summary Description of Current District Practice:

Charter schools are schools of choice by legislation and are open to any student in the State of California. Charter schools are granted renewal for single charter status for a minimum period of two years to a maximum of seven (7) years, depending on the state's classification of High, Middle or Low for a charter school's performance pursuant to applicable law. Low performing charter schools may be renewed for a period of two years, Middle performing charter schools for five years, and High performing charter schools may receive a term of five, six or seven years. It should be noted, however, that although State legislation allows students to attend a charter school from any area in the state, the Los Angeles Unified School District (LAUSD) is under Court Order, Crawford v. LAUSD, which applies to all schools within or chartered through the LAUSD. Any modifications to the Court-Ordered Integration Program must first be approved by Student Integration Services.

III. Proposed Change:

The approval of this charter petition would renew the charter of Valley International Preparatory High for five (5) years beginning July 1, 2026, until June 30, 2031.

IV. Effects of This Proposal:

The Los Angeles Unified School District (LAUSD) does not guarantee availability of Court-ordered Integration funding. The charter school will be responsible for maintaining the Court Order and providing information requested by the LAUSD as set forth in the Charter petition. Modifications or school decisions cannot negatively impact or cause additional costs to the Court-ordered Integration budget.

V. Analyze the Impact of This Proposal on Integration, Desegregation, Re-segregation and/or Segregation:

If the Charter goals are met, there should be positive results on the five (5) Harms of Racial Isolation which are low academic achievement, low self-esteem, lack of access to post-secondary opportunities, interracial hostility and intolerance, and overcrowded conditions. The Court-ordered Integration Program for participating students will operate under various Court Orders for schools within the Los Angeles Unified School District. Any modification of the Court-ordered Integration Program must first be approved by Student Integration Services.

VI. If proposed action affects negatively any desegregation program, list other option(s) identified:

If the District Court-ordered Integration Guidelines are followed, there will not be a negative effect on the District's Court-ordered Integration Program.
