1.	At the <b>MyData</b> landing page Dashboards, click on <b>School</b> .		
2.	From the <b>School Dashboards</b> menu bar, select <b>Attendance</b> . At the top of the next screen, click on <b>Month-to-Month Comparisons</b> tab.		After clicking <b>Attendance</b> from School Dashboards, you will see the <b>MyData Attendance Landing Page</b> which describes the uses of the various attendance reports.
3.	The report will display the school's cumulative attendance rate by month.		Cumulative attendance means the attendance for that month represents year-to-date attendance (school year). (e.g., December attendance includes attendance from July to December.)
4.	To change from cumulative to monthly attendance, click the down arrow in the <b>Display As:</b> field and select <b>Monthly Attendance</b>		Monthly attendance represents attendance only for the days of that month, without regard to the other months.
5.	To view individual student attendance for each month, click on the percentages in the <b>Cumulative Attendance Rate</b> column.		
6.	The report will display with the student names, and the attendance rate by MTD (Month-to-Date) and YTD (Year-to-Date).
