RESOLUTION 2015-35

BOARD REPORT NO. 017-15/16

**AMENDMENT TO THE FACILITIES SERVICES DIVISION STRATEGIC
EXECUTION PLAN TO DEFINE AND APPROVE A PHASE II PROGRAM TO
MITIGATE LEAD IN DRINKING WATER TO ELIMINATE THE NEED FOR
DAILY FLUSHING OF FIXTURES AT ALL DISTRICT SCHOOL SITES**

WHEREAS, District Staff proposes that the Board of Education approve an amendment to the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to define and approve a Phase II Program to Mitigate Lead in Drinking Water to Eliminate the Need for Daily Flushing of Fixtures at All District School Sites with a total program budget of \$19,831,708 (collectively, the "Project") as described in Board Report 017-15/16 attached hereto; and

WHEREAS, Phase II of the District's Mitigation of Lead in Drinking Water Program will pick up where Phase I left off with the goal of completing remediation efforts at all schools; and

WHEREAS, the effort will start by ensuring that all drinking water fixtures have been accounted for, and that first and second draw samples for lead levels are recorded for each of the fixtures.; and

WHEREAS, all drinking water fountains that are at or above the lead action level of 15 ppb (parts per billion) will be permanently removed and capped off except in instances where there is not an adequate number of fountains to serve the student population as required by code; and

WHEREAS, the California Plumbing Code requires one fountain per 150 occupants, and the District's Design Guide goes one step further to provide a fountain on each floor of a permanent classroom building; and

RESOLUTION 2015-35

AMENDMENT TO THE FACILITIES SERVICES DIVISION STRATEGIC EXECUTION PLAN TO DEFINE AND APPROVE A PHASE II PROGRAM TO MITIGATE LEAD IN DRINKING WATER TO ELIMINATE THE NEED FOR DAILY FLUSHING OF FIXTURES AT ALL DISTRICT SCHOOL SITES

WHEREAS, any drinking fountains that are needed to meet the District's Design Guide standards will be replaced with District approved supply components and resampled; and

WHEREAS, if the first or second draw sample is at or above 15 ppb then the fountain will be fitted with a point of use water filter as the final remediation action.; and

WHEREAS, District policy requires that Site Administrators certify monthly that they have met the daily flushing requirement for all drinking fountains; and

WHEREAS, these mitigation efforts will result in exemptions from the daily flushing requirement by the Office of Environmental Health and Safety when all of the drinking water fountains at a site have sampled below the District's action limit; and

WHEREAS, District Staff has determined that the Project is necessary to improve student health, safety and educational quality; and

WHEREAS, the Board of Education's approval of the Project will authorize District Staff to proceed with the expenditure of bond funds to undertake the Project in accordance with the provisions set forth in Measures K, R, Y and Q; and

WHEREAS, the Project is consistent with the District's commitment to address unmet school facilities needs and provide students with a safe and healthy learning environment; and

WHEREAS, District Staff has concluded that the proposed SEP amendment will facilitate implementation of the FSD SEP, and therefore, it will not adversely affect the District's ability to successfully complete the FSD SEP.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The School Construction Citizens' Bond Oversight Committee recommends that the Board of Education adopt an amendment to the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to define and approve a Phase II Program to Mitigate Lead in Drinking Water to Eliminate the Need for Daily Flushing of Fixtures at All District School Sites with a total program budget of \$19,831,708 (collectively, the "Project") as described in Board Report 017-15/16, a copy of which is attached hereto in the form it was presented to the BOC and is incorporated herein by reference.

RESOLUTION 2015-35

**AMENDMENT TO THE FACILITIES SERVICES DIVISION STRATEGIC
EXECUTION PLAN TO DEFINE AND APPROVE A PHASE II PROGRAM TO
MITIGATE LEAD IN DRINKING WATER TO ELIMINATE THE NEED FOR
DAILY FLUSHING OF FIXTURES AT ALL DISTRICT SCHOOL SITES**

2. This resolution shall be transmitted to the Los Angeles Unified School District Board of Education and posted on the Oversight Committee's website.
3. The District is directed to track the above recommendation and to report on the adoption, rejection, or pending status of the recommendations as provided in section 6.2 of the Charter and Memorandum of Understanding between the Oversight Committee and the District.

ADOPTED on August 20, 2015, by the following vote:

LOS ANGELES UNIFIED SCHOOL DISTRICT

Board of Education Report

Report Number:	017-15/16
Date:	September 1, 2015
Subject:	Amendment to the Facilities Services Division Strategic Execution Plan to Define and Approve a Phase II Program to Mitigate Lead in Drinking Water to Eliminate the Need for Daily Flushing of Fixtures at All District School Sites
Responsible Staff:	
Name	Mark Hovatter, Chief Facilities Executive
Office/Division	Facilities Services Division
Telephone No.	213-241-4811

BOARD REPORT

Action Proposed: Staff proposes that the Board of Education approve an amendment to the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to approve a Phase II Program to Mitigate Lead in Drinking Water at all school sites throughout the District (Sites are listed in Attachment A) to eliminate the need for daily flushing of fixtures for a total program budget of \$19,831,708. Construction is anticipated to start in the third quarter of 2015 and be completed by the end of the fourth quarter of 2017.

Phase II of the District's Mitigation of Lead in Drinking Water Program will pick up where Phase I left off with the goal of completing remediation efforts at all schools. The effort will start by ensuring that all drinking water fixtures have been accounted for, and that first and second draw samples for lead levels are recorded for each of the fixtures. All drinking water fountains that are at or above the lead action level of 15 ppb (parts per billion) will be permanently removed and capped off except in instances where there is not an adequate number of fountains to serve the student population as required by code. The California Plumbing Code requires one fountain per 150 occupants, and the District's Design Guide goes one step further to provide a fountain on each floor of a permanent classroom building. Any drinking fountains that are needed to meet the District's Design Guide standards will be replaced with District approved supply components and resampled. If the first or second draw sample is at or above 15 ppb then the fountain will be fitted with a point of use water filter as the final remediation action.

Currently, District policy requires that Site Administrators certify monthly that they have met the daily flushing requirement for all drinking fountains. These mitigation efforts will result in exemptions from the

LOS ANGELES UNIFIED SCHOOL DISTRICT

Board of Education Report

daily flushing requirement by the Office of Environmental Health and Safety when all of the drinking water fountains at a site have sampled below the District's action limit.

Background:

In 2008, the District initiated a comprehensive program to sample all drinking water sources at all schools. Each drinking water fountain and faucet was sampled twice: at an initial draw and at a second draw after flushing for 30 seconds. At that time, drinking water fountains that exceeded the District's action level of 15 parts per billion (ppb) of lead on the second draw were shut off until corrective actions to reduce lead levels were implemented. As of this date, the District has not completed all corrective actions. The District's revised policy for daily flushing of drinking fountains and faucets (Reference Guide 3930.4 *Daily Flushing Requirements for Drinking Fountains and Faucets*) requires Administrators to certify electronically each month that they have met the daily flushing requirements. This policy applies to all active drinking fountains and faucets regardless if the initial or second draw results were under the District's action level of 15 ppb.

On August 25, 2009, the Board of Education approved \$12.5 Million in Measure R Bond funds to mitigate the effects of lead in water at school sites. Projects were to be prioritized based on the sites with the greatest number of drinking fountains that had been shut off and those sites with the youngest students. The Phase I projects to mitigate lead in water focused on the installation of primarily point of use filters at all Early Education Centers and approximately 20% of elementary school sites. In total, 203 schools were completed in Phase I.

Expected Outcomes: If the Board of Education approves staff's proposal of the Phase II program, all school sites will be surveyed to ensure that there is a sample record for every drinking fountain and faucet on campus and all school sites will be equipped with drinking water sources that are safe for consumption.

On an annual basis the Facilities Services Division will report on the progress of this program in the Strategic Execution Plan.

Board Options and Consequences:

A "yes" vote will allow the Facilities Services Division to move forward with Phase II of the mitigation of lead in drinking water program.

A "no" vote will mean that site administrators will continue to be required to certify monthly that staff are flushing drinking fountains daily to ensure that drinking water is safe for consumption until funding can be identified to address the issue at their site.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Board of Education Report

Policy Implications:	These actions are consistent with the District's commitment to address unmet school facilities needs and provide students with a safe and healthy learning environment.
Budget Impact:	If this item is approved, \$19,831,708 in Bond program funds earmarked specifically for critical school repair and safety improvements to school building components will be allocated to lead in drinking water mitigation at schools throughout the District.
Bond Oversight Committee Recommendations:	This item was considered by the School Construction Bond Citizens' Oversight Committee ("BOC") at its meeting on August 20, 2015. Staff has concluded that the proposed amendment to the FSD-SEP will help facilitate implementation of the SEP, and therefore, it will not adversely affect the District's ability to successfully complete the SEP.
