Amendment to the Facilities Services Division Strategic Execution Plan to Define and Approve 27 Local District Priority and Board Member Priority Projects

November 10 2020

Facilities Services Division

Action Proposed:

Staff proposes that the Board of Education approve an amendment to the Facilities Services Division (FSD) Strategic Execution Plan (SEP) to define and approve 27 Local District Priority (LDP) and Board Member Priority (BMP) projects, as listed on Attachment A. Staff further proposes that the Board authorize the Chief Procurement Officer and/or the Chief Facilities Executive and/or their designee(s) to execute all instruments necessary, as legally permissible, to implement the proposed Project, including budget modifications and the purchase of equipment and materials. The total budget for these projects is \$869,787.

Background:

The need for LDP and BMP projects is identified by Local Districts and Board Districts. Proposed projects are developed with support from Facilities Services Division staff and input from school administrators.

Project scopes, schedules, and budgets may vary depending on site conditions and needs. All projects must be capital in nature and adhere to bond language and laws.

Expected Outcomes:

Execution of these projects will help improve the learning environment for students, teachers, and staff.

Board Options and Consequences:

A “yes” vote will allow staff to execute the projects listed on Attachment A. Failure to approve this proposed action will delay the projects and ultimately the anticipated benefit to the school and its students.

Policy Implications:

The requested actions are consistent with the Board-Prioritized Facilities Programs for LDP and BMP projects and the District’s commitment to address unmet school facilities needs and provide students with a safe and healthy learning environment.

Budget Impact:

The total combined budget for the 27 projects is \$869,787. Sixteen projects are funded by Bond Program funds allocated for LDP projects. Eleven projects are funded by Bond Program funds allocated for BMP projects.

Each project budget was prepared based on the current information known, and assumptions about, the project scope, site conditions, and market conditions. Individual project budgets will be reviewed throughout the planning, design, and construction phases as new information becomes known or unforeseen conditions arise and will be adjusted accordingly to enable the successful completion of each project.

Student Impact:

The projects proposed in this Board Report will upgrade, modernize, and/or improve school facilities to enhance the safety and educational quality of our students' learning environment.

Issues and Analysis:

This report includes a number of time-sensitive, small to medium-sized projects that have been deemed critical by Board Members and/or Local Districts and school administrators.

Bond Oversight Committee Recommendations:

This item was considered by the School Construction Bond Citizens' Oversight Committee (BOC) at its meeting on October 29, 2020. Staff has concluded that this proposed FSD-SEP amendment will help facilitate implementation of the FSD-SEP, and therefore, it will not adversely affect the District's ability to successfully complete the FSD-SEP.
