

Transportation Modernization FAQs (Schools & Regions)

#	Question	Response
1	I see that there will be cameras installed both inside and outside of the bus. What are those cameras for? What footage will be captured?	The interior and exterior cameras that will be installed on buses as part of the modernization project are meant to promote student and staff safety. Although they are part of the hardware installation, the cameras will not be turned on until the District's camera policy is finalized. District stakeholders will be advised of the date on which the cameras will be turned on to capture footage.
2	What does the modernization project mean for field trips?	For the most part, everything about field trips will remain the same. The only difference is that school administrators will be able to track the location of the field trip bus via the Web Portal.
3	Where can I get more information on LAUSD's transportation modernization project?	More information on the District's transportation modernization project can be found on the Transportation website at transportation.lausd.org .
4	What hardware will be installed on buses as part of the modernization project?	4 interior and 4 exterior, tablet, scanner (TBD), GPS functionality...
5	Will this new system affect current bus schedules/routes?	No, it will not have an impact on current route or pick-up/drop-off times.
