SHORT-LISTED BIDDERS – Only short-listed bidders will proceed to Step 2 and 3.

Step 2: (Pass/Fail) Subcontractor Statement of Qualifications (“SOQ”):

Bidders nominate subcontractors. RFQ requires shortlisted bidders to name minimum of one (1) subcontractor(s) for each trade specified below. If prime intends to self-perform in any division, they need to provide information requested below regarding experience. Non-exclusive means that the subcontractor may also be nominated by other short-listed bidders. **The District reserves the right to accept or reject the proposed subcontractor. The bidder is bound to include and list in its purchase price bid at least one of the subcontractors that are on the short list for**

each specified trade. All names of subcontractors nominated will be shared with all short-listed Bidders to obtain the most competitive and best pricing prior to releasing bid results. The District will score subcontractors as a Pass/Fail only. Short-listed bidders will not receive any points for this step. Subcontractors that do not receive at least a 70% will not be added to the short list for the specific trade.

- Division 3 – Concrete (Structural Concrete, Stressing Tendons, and Formwork only)

- Subcontractor’s three-year average EMR.
- Two references.
- Subcontractor’s key personnel. Show experience and work history including references of Foreman and Project Manager. (References need to be from General Contractor and Client for specific projects.)

In addition, provide subcontractor legal name, California Contractors State License Board license number, address, and whether or not District prequalified. Subcontractors will be evaluated and scored. Please note MEP subcontractor’s prequalification applies. Subcontractor scoring for this Project is not part of the District’s standard subcontractor prequalification program. Nominated subcontractors listed in the bidder’s purchase price bid will have the protections afforded them by Public Contract Code section 4107.

Step 3: Purchase Price Bid: The best value contractor is determined by dividing each bidder’s price by its qualification score. The lowest resulting cost per quality point will represent the best value bid. The award of the contract shall be made to the bidder whose bid is determined to be the best value to the District.

$$\text{Best Value Score} = \frac{\text{Bidder's Bid Price}}{\text{Qualification Score}}$$

VIII. BIDDER’S RESPONSIBILITIES AND SCOPE OF SERVICES

- LAUSD Projects
 - DSA Schools/OSHPD
 - Non-DSA Schools
 - California Public Works Projects
 - Other Complex Projects

Project size, challenges and complexity will be taken into consideration for the scoring of this section. Bidders are discouraged from submitting projects that are significantly smaller in value, scope, or complexity. Completed projects (in whole or phases) are preferred.

The District, at its discretion, reserves the right to contact others, not limited to owners, project managers, construction managers, inspectors, District staff, etc., to evaluate and score this section. The scoring of this section is not solely limited to the information provided by the bidder.

Evaluation Criteria: Bidder's experience will be evaluated for similarity to the proposed project and successful completion of the referenced projects with respect to schedule, budget, and owner appraisal of the completed facilities.

- E. DEMONSTRATED MANAGEMENT COMPETENCY - ORGANIZATIONAL CHART: Bidder shall not propose key staff members that are currently working **full-time** on other District projects if the actual or projected substantial completion date is later than the NTP date for this Project. Superintendents will only be allowed to work on one LAUSD project at a time, but Project Managers can have multiple projects unless the District has specified the Project Manager to be full-time on this RFQ or on a previous project that is still in progress. Full-Time Project Managers will be specified by project and reserved for the larger or more complex projects.

Bidders submitting on multiple projects during concurrent procurement periods **can** propose the same key staff members if they meet the criteria stated in the above paragraph. If a Bidder is successful on a project and has full-time key staff listed for other concurrent procurements, then the bidder must provide substitute(s) for the other projects. The substitute(s) will be evaluated, and the bidder's scores will be adjusted. **Once a bidder has been selected, no changes in the key staff members will be permitted without a compelling unavoidable justification, and District's prior consent.**

The District, at its discretion, reserves the right to contact others, not limited to owners, project managers, construction managers, inspectors, District staff, etc., to evaluate and score this section. The scoring of this section is not solely limited to the information provided by the bidder.

- F. DEMONSTRATED MANAGEMENT COMPETENCY - PROPOSED TEAM: The District is seeking a highly qualified team to construct the project. Bidder shall utilize *Exhibits B, B1, B2 and B3*. Key staff members are Project Manager (PM) and Project Superintendent.

Project size, challenges, complexity, position held, and time frame for the position held will be taken into consideration for the scoring of this section. Bidders are discouraged from submitting projects that are significantly smaller in value, scope, or complexity. Completed projects (in whole or phases) are preferred.

Note: Safety requirements on all projects:

- A minimum of 20% of the jobsite workers must be OSHA 10-hour General or Construction Industry Safety and Health Certified.
- All foreman/first-line supervisors must have OSHA 30-hour training.
- 20% of the remaining crew should have OSHA 10-hour training.

- G. PAST PERFORMANCE: In this section the bidder shall submit information relative to its performance on three (3) reference projects that were completed within the past ten years, utilizing Exhibit A1.

The minimum requirements for past performance are past successes at substantially completing three (3) recent construction projects with comparable size and complexity.

The District will use Bidder’s recent evaluations for this requirement. The District prefers to use LAUSD evaluations, however Bidders may submit outside evaluations for consideration that are similar in size, scope and complexity to the current project. The District will verify performance by contacting listed references. Bidders with only 1 or 2 District evaluations on file (Exhibit C) must submit outside references for evaluations. Outside evaluations must be submitted utilizing *Exhibit D – Contractor Performance Evaluation for Non-LAUSD Projects*. References must be current and verifiable.

H. Use of SBE/Local Worker/We Build/VBE Compliance: The District has adopted SBE and VBE participation programs. The District has established goals of 25% participation by certified SBEs, including micro-businesses, and 5% participation by VBEs, in the total contract amount. SBE, Micro-SBE, or VBE certified subcontractors, service providers, and material suppliers at all tiers may be counted in achieving these goals, but amounts passed through such certified SBEs and VBEs to non-SBE or non-VBE contractors, service providers, or materials suppliers shall not be counted in achieving participation goals.

The District’s Project Stabilization Agreement (PSA) has a **50%** local worker participation goal for school construction projects funded through voter-approved bonds. In support of the established goal, the District has implemented a We Build program that trains local workers in the construction trades.

Bidder shall submit evidence of their success in reaching or exceeding the above stated goals or goals on other similar public owner’s programs. Bidder may submit projects other than those submitted under bidder’s relevant experience to satisfy this SBE/We Build/Local Worker/VBE criterion. However, projects submitted for consideration must have been completed within the past ten years, reached substantial completion, and are comparable size and complexity. For submitted projects with goals or programs that differ from the District, please identify the public agency goal, the achievement by the bidder, and a description of the projects.

Provide the SBE/Local Worker/We Build/VBE information using the same table format as example:

Project	Contract Amount	Completion Date	SBE%	Micro-SBE%	Local Worker%	Number of We Build Workers	VBE%
Project Name & Location			25	10	49	1	
Project Name & Location						2	3
Project Name & Location			20			9	
Project Name & Location				15		7	2
Project Name & Location			21		50		
Project Name & Location						8	5
Project Name & Location			38	19	45		
Project Name & Location					33		

NOTE: All of the information requested above is required. If a bidder is not able to provide the information requested, please so state. Any sections left blank or without any response will be scored accordingly.

The District, at its discretion, reserves the right to contact others, not limited to owners, project managers, construction managers, inspectors, District staff, etc., to evaluate and score this section. The scoring of this

section is not solely limited to the information provided by the bidder. The District will score the top three projects of each category (i.e. SBE, Local Worker, etc.).

Bidders that indiscriminately identify all or most of their submittal as exempt from disclosure without justification may be deemed nonresponsive.

In the event the District is required to defend an action on a Public Records Act request for any of the contents of a bid marked confidential, proprietary, or trade secret, the bidder agrees, on submission of its bid for the District's consideration, to defend and indemnify the District from all costs and expenses, including attorneys' fees, in any action arising under the Public Records Act.

XXI. DISTRICT RIGHTS

The District may investigate the qualifications of any individual or firm under consideration, require confirmation of information furnished and require additional evidence of qualifications to perform the services described in this RFQ. The District also reserves certain rights, including, but not limited to, the following:

- A. Reject any or all of the responses to the RFQ.

- D. Approve or disapprove the use of particular subcontractors and determine, at the District's sole discretion, whether any penalty or disqualification may apply to a bidder.
- E. Conduct more than one Pre-Bid meeting or similar meeting for/with bidders.
- F. Question outside entities and District personnel and consultants regarding Bidder's past performance.

This RFQ shall not, in any manner, be construed to be an obligation on the District to enter into a contract or result in any claim for reimbursement of costs for any efforts expended in responding to the RFQ, participating in interviews, or in anticipation of any contract.

XXIII. BIDS VALID

All pricing quoted shall be valid for a period not less than **sixty (60)** days from the price bid due date.

XXIV. FILING OF PROTEST

All District procurements shall be conducted in a manner which assures that all prospective contractors/consultants are afforded fair and equal consideration, and the award of District contracts preserves and protects the integrity of the procurement process. To that end, any interested party who desires to raise concerns regarding a District award shall have the right to have its complaint considered and resolved administratively by the District in an expeditious manner. "Interested party," as used herein, means an actual or prospective Proposer whose direct economic interest would be affected by the award of a contract or by the failure to award a contract.

All protests shall be filed, handled, and resolved in a manner consistent with the District's protest procedures. The District will respond to each substantive issue raised in the protest. Protests relating to the content of this solicitation must be filed within ten (10) business days after the release of the solicitation. Failure to file a timely protest is a failure to exhaust an administrative remedy and shall act as a waiver of the right to challenge the solicitation and process even if a protest regarding a recommendation for contract award is filed.

Protests relating to a recommendation for contract award must be filed by an "interested party" within five (5) business days after release of the solicitation results. Failure to file a timely protest is a failure to exhaust an administrative remedy and shall act as a waiver of the right to challenge the recommendation for contract award.

All protests shall be filed via email to protest@lausd.net and BVDContracts@lausd.net in writing with the District's Chief Procurement Officer (CPO) or designee. Emailed protests must contain in the "Subject" line the advertised solicitation name and number with the name of the Contracting Officer.

Written protests shall be filed with the **Chief Procurement Officer, Los Angeles Unified School District, 333 S. Beaudry Avenue – 28th Floor, Los Angeles, CA 90017**. Include identification of the proposed solicitation name and number on the outside of the envelope/package with the Contracting Officer's name.

The protest shall, at a minimum, contain the following:

1. The name and address of the interested party and its relationship to the solicitation;
2. Identification of the solicitation name and number with Contracting Officer's name (include the school name, project number, and project description, as applicable);
3. Substantive description of the nature of the protest;
4. All documentation supporting the allegations of the protest;
5. Statement of the specific relief requested;
6. Identification of the provision(s) of the solicitation, regulations, or laws upon which the protest is based; and
7. Signature of an authorized executive with the authority to bind the company.

The Chief Procurement Officer or designee shall make a determination on the protest normally within (10) business days after the receipt. The Chief Procurement Officer or designee has the authority to make a final determination and the decision shall constitute the protestor's final administrative remedy.

NOTE: Bid protests on LAUSD bids that were without merit within the past three (3) years will affect Contractor's Compliance Score. Refer to Prequalification Field and Compliance Scoring Criteria at <http://www.laschools.org/new-site/prequalification/forms>.

XXV. SOURCE SELECTION INFORMATION/COMPETITIVE CONTRACTING PROCESS

To ensure a level playing field with an open and uniform competitive contracting process, Contractors and their Representatives must maintain a Cone of Silence, as defined in the LAUSD Contractor Code of Conduct, dated 11/06, from the time when an Invitation for Bid (IFB), Request for Proposal (RFP), Request for Interest and Bid (RFIB), Request for Quote, Request for Qualification (RFQ), or any other solicitation release is announced until the time a contract award recommendation is made public by the Board Secretariat's posting of the board report for the contract to be approved. During the time under the Cone of Silence, Contractors and their Representatives are prohibited from making any contact on any part of a proposal, negotiation or contract with any LAUSD official as this could appear to be an attempt to curry favor or influence. An "LAUSD official" is broadly defined to include "any board member, employee, consultant or advisory member of LAUSD" who is involved in making recommendations or decisions for LAUSD.

XXV.I Prohibited communication by Contractors and their Representatives under the Cone of Silence include, but are not limited to:

- XXV.I.I Contact of LAUSD Officials, including members of the department initiating a contract, or members who will serve on an evaluation team for any contract information that is not uniformly available to all other bidders, proposers or contractors;
- XXV.I.II Contact of LAUSD Officials, including Board Members and their staff, to lobby on any aspect relating to a contract matter under consideration, negotiation, protest or dispute;
- XXV.I.III Contact of LAUSD Officials in the particular department requesting a competitive contract to discuss other business or partnership opportunities.

XXV.II Exceptions – The following are exceptions to the Cone of Silence:

- XXV.II.I Open and uniform communications which are made as part of the procurement process such as the pre-bid or pre-proposal meetings or other exchanges of information which are given to all proposers;
- XXV.II.II Interviews or presentations to evaluation committee members which are part of the procurement process;
- XXV.II.III Clarification requests made in writing, under the terms expressly allowed for in an LAUSD contracting document, to the appropriate designated contract official(s);
- XXV.II.IV Negotiations with LAUSD's designated negotiation team members;
- XXV.II.V Protests which follow the process outlined by LAUSD's protest policies and procedures; and
- XXV.II.VI Requests for technical assistance approved by LAUSD contract officials (for example questions relating to LAUSD's Small Business Enterprise Program, or requests for formal guidance on ethics matters from the Ethics Office).
